

Underpass Opens After Nearly a Year—No More Highway Traffic in Downtown Canyon

Last fall the underpass on Highway 87 was closed in order to widen it from two narrow lanes to four divided lanes. At 10 a. m. Monday, a red ribbon stretched across the highway was cut by Mayor Hosea Foster, and traffic was turned into the new underpass. Within 10 minutes, an estimated 100 cars had gone under. The right picture,

taken in Aug. 1953, shows the old bottleneck to north and southbound traffic. The picture on the left, taken at approximately the same angle as the old, shows the new underpass being used by a Santa Fe train and one car, which is climbing on the far side. During construction of the underpass, the Santa Fe's trains were routed over a temporary

fill south of the bridge while the old bridge was torn out and a new one built. Traffic on the highway was routed down Second, Third and Fourth Avenues during construction. Also in the opening ceremonies were Roy Joe Stevens, Pat Baber, Charlie Dowlen, Clarence Beckman, C. Y. Johnson, Truett Hull, Bob Bellah and Paul Lindsey.

Bufs Beat CCU; Face McMurry

Off to their best start in five years, West Texas State's Buffaloes will attempt to notch their second straight football win of the season Saturday night against McMurry College in Buffalo Stadium. Kick-off time is 8 p. m.

Coach Frank Kimbrough and associate are expecting more of an argument from McMurry than was offered by University of Corpus Christi in the season inaugural Saturday. The Herd blasted the Tarpons, 46-0, without getting up a good sweat.

Although the starting eleven played less than a quarter, it was long enough for fullback-captain Delmer Tuggle to break his left hand. He will be lost for at least three weeks, and maybe longer.

In an effort to plug the gap, Archie Souter, 185-pound Olton sophomore, has been moved to the No. 1 spot and Ron Mills, second-string quarterback from White Deer, has been shifted to the second-string fullback.

McMurry, always a tough customer for the West Texans, opened its campaign with a 13-0 win over Gustavus Adolphus at St. Paul, Minn., Saturday. The Indians have most of their personnel back who trimmed the Buffs last season, 19-18. In 1953, the two teams battled to a 20-20 deadlock.

West Texas indicated it meant business when it took the field against Corpus Christi. Within three minutes and 50 seconds after the kickoff, the Buffs sported a 14-0 lead. It was 21-0 at the first quarter stop, 40 at the half (Con't. on Back Page Section 1)

Number 24

Lots of Young Bull

Two young bull calves stare while waiting for the gigantic auction sale of the Mill Iron Hereford Co. at the Nance Ranch east of Canyon. The 1,237 head will be sold in 948 lots today through Friday.

MILL IRON SELLS 1,237 HEAD

The title of the second largest purebred Hereford sale in the nation will belong for one week to the three-day Mill Iron Hereford Co. sale which began today at the Nance Ranch, east of Canyon.

Next week, a larger sale in Kentucky will take over the title. However, the 1,237 head being sold by the Mill Iron group will still be the third largest group ever to be sold at auction.

Buyers from 41 states arrived at the sale today, which is designed to sell off part of the 5,842 head bought by the Mill Iron in March, 1954.

Workers from the Mill Iron spread have been at the Nance Ranch since the last part of July, getting the sales area ready for today. The hands strengthened the pens and corrals, and made the fences higher.

"I don't know why they thought they had to do it," said O. R. (Pete) Peterson, sale manager. "This is the most gentle herd I've ever seen."

Peterson, of the National Auction Company, said the herd to be sold includes 737 cows, 111 heifers, 79 bulls and 310 calves. The herd had been held on Mill

Iron range until it was brought to Canyon. The last shipment of 25 bulls arrived late last week.

Peterson said more catalogues of the sale have been sent than for any sale he has ever handled. He said four of the nation's top auctioneers will handle the ring.

The Mill Iron company leased the Nance Ranch from Mrs. George Nance early last summer for a period of two years for purposes of this sale and other possible ones.

At that time, the company purchased the ranch for \$100,000. (Con't. on Back Page Section 1)

Student Center Opens Sunday

Formal opening ceremonies for the new Christian-Presbyterian Student Center at 24th and Fourth Avenue will be held beginning at 2 p. m. Sunday.

The schedule calls for open house from 2 until 5 p. m., with dedication services at 5:30 p. m.

On the program of the services will be a solo, "Bless this House," sung by Joanne Hill and two group hymns.

Dr. Newton J. Robison, pastor of the First Christian Church in Amarillo, will give the dedicatory message. Don Bauer will give the student response.

A litany of dedication will be read by the Rev. T. Winston Wilbanks, and the dedicatory prayer will be offered by the Rev. Win Matsler.

Mrs. Lee Foster will play the piano for the services.

Record Enrollment Expected at College

With about a week remaining in which students may register, a new record enrollment appears likely for the fall semester at West Texas State College.

President James P. Cornette has estimated that the combined Canyon campus and Amarillo Center enrollment will be about 2,600.

Expected here in Canyon is a total of about 1,500 students, while Amarillo Center's enrollment is expected to reach about 1,100. Previous high combined enrollment was set last fall, when 2,379 persons enrolled in both divisions.

Last year the total fall enrollment for the Canyon campus was 1,235. Previous high enrollment for the campus was set in 1949, when 1,336 registered.

Umbarger School District Calls \$30,000 Bond Election Sept. 26

Paving Program Has Slow Start

The city's paving program, started last week, is still moving along slowly, City Secretary Dudley Bayne said yesterday.

The Chamber of Commerce endorsed the program last week, and announced they were working on a plan of assigning block captains to work with property owners in signing up for paving.

The plan calls for property owners to pay 45 cents a front foot for paving. Curb and gutter will be extra at about \$130 a foot.

The city will prepare the base for the paving during the winter. The topping, the same as that used for farm-to-market roads, will be applied next fall.

The city, cooperating with the school board and individual property owners will pave part of the streets in the park within the next 45 days, Bayne said.

That plan calls for paving on 19th Street from Eighth Avenue to Twelfth Avenue and east on Twelfth to 22nd, the street at the rear of the new elementary school. Bayne said the type of paving (Con't. on Back Page, Section 1)

The trustees of the Umbarger Common School District No. 11 approved a \$30,000 bond election to provide a new high school building at a meeting Sept. 13.

The election will be held Sept. 26 with a polling place at the Knights of Columbus hall in Umbarger.

Studies concerning building a new high school building have been in progress for more than a year, and the trustees have been assisted by an advisory committee of citizens.

Plans to go ahead with the construction were made following legislation passed this summer which allows small schools to make permanent improvements.

A majority of the property owners in the district have been contacted and have approved the project, according to Ex-Officio County School Superintendent Roy Joe Stevens.

The issuance of the bonds will be handled by Bert, Hamilton and Co. of Dallas.

Eligible to vote in the election are qualified voters who have rendered property for taxation and live in the district.

Members of the board of trustees for the district are Raymond Batenhorst, Ben Buecker and Lewie Raef.

Big State Auction To Begin Buying Highway, Expressway Right of Way

The Randall County Commissioners Court last Thursday voted to donate \$3,000 to the City of Canyon to be used for a proposed paving project in Conner Park.

The city will bear the remainder of the cost of paving the streets in the park.

In a meeting Monday, the commissioners met with representatives of the Big State Auction Co., who are appraising right-of-way for the highway widening project to Happy and the expressway north.

The representatives said they would begin soon to negotiate for purchase of some of the right-of-way. The portion to be purchased first is that from the top of Canyon Hill south to Happy.

The commissioners also approved moving exchanging the county judge's office with the tax office because of the need for more room by the tax office.

The tax office will use all the space in the judge's office and will also take over the commissioner's courtroom. The commissioners will meet in other rooms in the courthouse which are not in use at the time of a meeting.

Mr. and Mrs. T. B. Atkins of Big Spring visited with Mr. and Mrs. G. B. Combs Monday. Mr. Atkins is recovering from a serious illness and is only able to be at work two hours a day.

Eagle Halfback

Harlie Adams runs around end during the Canyon Eagle-Panhandle Panther football game last Friday. Adams averaged 8.3 yards per carry in the game.

Eagles Whomp Panhandle 33-6; Play Muleshoe Here Friday Nite

The Canyon High Eagles may be plagued by low grades in Friday night's game with the Muleshoe Mules in Buffalo Stadium.

Yesterday, Coach Guy Harrison said the team "may be weakened because the kids are not passing enough school work."

Otherwise, the Eagles are in good shape after tromping the Panhandle Panthers 33 to 6 last Friday night.

"I was fairly well pleased with the defensive work last week," Coach Harrison said. "Offensively, I was not pleased at all."

"We still had two illegal use of the hands penalties, and both killed drives. We had two called back because of penalties, too."

"That won't hurt in a game like that, but against a tough team it would beat you," the coach said. The coach said he has no idea what type of defense Muleshoe will use. "As unorthodox as their

defense has been in their last two games, I wouldn't know what to expect when they play us."

The Muleshoe line averages 164 pounds and the backfield 146 according to the Mules' program, but the Canyon scout report says the individual players look bigger than the program shows.

In commenting on one player, the report says, "The program lists him at 157, but he is just about the size of Richard Burgess (who weighs 215)."

The Mules run off T-formation and use a flanker about one-third of the time.

So far this year, the Mules were defeated by a score of 47 to 7 by Hereford and 39 to 0 by Sudan. Canyon's record is a 7 to 2 loss to Floydada and a 33 to 6 win over Panhandle. The Eagles ran all over the Panthers last Friday night, con-

trolling the game from the beginning.

Canyon outgained Panhandle 304 rushing yards to 55. The Eagles threw five passes, completed two for 32 yards. The Panthers threw 10, completed three for 14 yards and had one intercepted.

The Eagles had 15 first downs to the Panthers' seven.

In the second Canyon series of downs from scrimmage, beginning on the Panhandle 40-yard line, Harlie Adams ran to the 24, then to the 16.

Don Britain carried on to the 15, then to the four. With six minutes and six seconds left in the first quarter, Britain punched over the goal line for the first Eagle score.

Charles Neblett's extra point try was no good.

Following the kickoff, Panhandle tried four plays and lost the (Con't. on Back Page Section 1)

All-Church Party

Hundreds of West Texas State students attended the All-Church Party held last week in the Student Union Building. The churches held individual parties the following night.

EDITORIAL

Views and Comments

"One o'clock, two o'clock, three o'clock, rock. Four o'clock, five o'clock, six o'clock, rock. Seven o'clock, eight o'clock, nine o'clock, rock; we're gonna rock, rock, around the clock."

Sounds something like a new father giving his schedule of activities for the night.

But it isn't. Those words, fairly unrelated to any material matter, make up the lyrics of a popular song which recently stood at the top of the nation's hit parade. They are the lyrics of "Rock Around the Clock," a song that was used as the theme of the motion picture "Blackboard Jungle."

The current No. 1 tune has lyrics that are somewhat more sensible. The song, "The Yellow Rose of Texas," is an old Civil War marching song, and the lyrics give praise to the girl friend left behind.

Some day when you have time, sit down and listen to the lyrics of songs poured in gallon quantities each day from the radio. Don't pay any attention to the music, just listen closely to the words.

You'll be surprised how little sense they make. The songs most popular at the present time, the ones which will drop quickest from public favor (which mean teenage favor), are the worst offenders.

Most popular songs have an extremely short life. Some lives are so short that the words most likely are never known by most of those who listen to the songs.

The tunes have a way of coming back again and again, disguised slightly, but the same tunes, nevertheless.

As far as having sensible lyrics, probably the best songs come from musical plays. Those songs are used to carry on a plot, and the words themselves make sense.

However, occasionally, when the songs are taken out of the play and rendered by themselves, the whole song doesn't make sense.

Take, for instance, a recent nation-wide favorite, "Hernando's Hideaway."

Just hearing the song makes you wonder. But in the play, Hernando's Hideaway was a drinking joint, and the feller who sings the song is asking his girl friend for a date. At least a little more sensible.

Newspapers are drowned daily by a deluge of press, or "news" releases from just about everywhere. Some provide a useful source of copy for the readers, but most are thrown away.

For years, the Highway Council of Texas, the National Safety Council, and other safety organizations have been beating the drums for more and better safety devices for automobiles.

Now, the automobile makers have begun announcing such advancements as collapsible steering wheels, safety belts, padded dash boards and such.

So, the safety organizations' chant is changing.

This week, from the Highway Safety Council of Texas comes this: "The Highway Safety Council of Texas said today that improved safety devices on 1956 model automobiles may lure motorists into a false sense of security on the highway."

It goes on and on to say that drivers deserve all the blame they've received for accidents, but automobiles deserve more blame than they have received.

So there you are.

Two years ago, radio station WGMS in Washington, D.C., whose call letters stand for Washington's Good Music Station, presented a concert by the National Gallery Orchestra. The concert included "The Confederacy," a medley of Southern songs, some of which came from Civil War times.

Included in the medley is the now familiar "The Yellow Rose of Texas."

Columbia Records brought out an album of the medley last fall, and WGMS proudly broadcast the premiere of the record.

Just this summer, Mitch Miller, head of Columbia's popular record division, heard "The Yellow Rose of Texas," added a couple of french horns to its bouncing rhythm, and issued a popular version of it.

About the same time, members of the J. Walter Thompson advertising agency were looking for some theme music for the 1956 Ford.

They, too, picked up "The Yellow Rose of Texas," since the tune is public domain and cannot be copyrighted. The advertising geniuses wrote up a new set of lyrics (something like, "It's here, the '56 Ford It's new, all new for you...") and had a nice singing commercial which we all will be hearing in the coming months.

Now, WGMS has a rule against singing commercials, considering them not good music. The Ford admen submitted their version of "The Yellow Rose of Texas" however, and were hurt when it was turned down by WGMS.

The admen pointed out that the song had been carried at least twice before as good music, and wondered how it could be banned as bad music when a singing commercial.

The singing commercial will go on the air over WGMS this week.

Cops, who would rather be called police officers, are not all bad, even though we might like to think they are at times. Chief of Police George Rodenis is a case in point.

He had been seeing a young schoolboy, who has the use of only one leg, ride a dilapidated bicycle across the highway on the way to the elementary school. Chief Rodenis said the bicycle's brakes were faulty, and was dangerous even for a youngster with two useful legs.

So, last Wednesday, Chief Rodenis walked around the square telling the story of the boy and his bicycle.

In an hour-and-a-half generous businessmen had donated enough money to buy a brand new, English-made bicycle. It's not the chief's duty to do such things. If the old bicycle was unsafe, he could have warned the boy's parents, and let it go at that.

Chief Rodenis is a good cop.

Dear Editor:

I recently heard about the Panhandle-Plains Museum on television and would like to know a little more about it. I am a career Marine, have been in since I was 17, some 13 years ago.

I was transferred to Texas a little while ago for the first time and to help pass the time I've been reading Texas history, a very interesting subject.

Here's my problem: Could you pass my address along to a few friends interested in Texas history. Perhaps by correspondence I can enlarge my limited knowledge of Texas.

NAS, Dallas, Texas

WHO KNOWS?

1. Name the seven countries comprising Central America?
2. What is the annual estimated insect damage cost in this country?
3. Just what is the "Teapot Dome?"
4. What is the largest city south of the Equator?
5. Of what country is it the capital?
6. How many dishes does the average housewife wash in a lifetime?
7. What is the velocity of light?
8. How many kinds of fish are there in the world?
9. What is the average yearly income of a woman who works full time?
10. What is considered the happiest period of life?

The Answers . . .

1. Costa Rica, British Honduras, El Salvador, Guatemala, Honduras, Nicaragua and Panama.
2. An estimated \$4,000,000,000.
3. A U. S. Naval oil reservation in Central Wyoming.
4. Buenos Aires.
5. Argentina.
6. An estimated 2,500,000.
7. 186,273 miles per second.
8. More than 40,000.
9. About \$996.28.
10. Between 20 and 30—married or unmarried.

POLIO VACCINE

President Eisenhower has signed the \$30,000,000 measure to help the states buy polio vaccine. The Public Health Service has announced that \$25,000,000 will be spent by the states for the purchase of vaccine, while \$5,000,000 will pay for immunization programs or for the purchase of vaccine. All of the money is to be spent by next February 15.

I GIVE YOU
TEXAS
By
BOYCE HOUSE

For years and years, Greta Garbo has been famous for her utterance, "I want to be alone." And now along comes some researcher who declares she didn't say it. What she said was, "I want to be left alone." Quite a bit of difference!

Commodore Vanderbilt has been credited, for more than half a century, with having said, "The public be d—d" and this has been quoted innumerable times as illustrating the attitude of the old-time practitioners of high finance. But awhile back I came across the statement that a newspaper reporter, assigned to interview Vanderbilt, visited so many bars first, that he did not reach the financier's private railroad car until hours after Vanderbilt had gone to sleep. The reporter awakened him and said he wished an interview and insisted, "The public wants it." The half-awake multimillionaire said, "The public be d—d at 3 o'clock in the morning." And that, if true, puts quite a different light on the matter.

Thomas Jefferson has been credited with having said, "That government is best which governs least" by innumerable speakers and editorial writers. But the scholars of the Library of Congress say they have been unable to find that statement in any of Jefferson's writings.

Ralph Waldo Emerson has been quoted in countless high school commencement addresses as having said, "If a man builds a better mouse-trap than his neighbor, though he lives in the wilderness, the world will make a beaten path to his door." But, a good many years ago, a savant said no such statement could be found in any of Emerson's books. However, someone produced a newspaper

account of one of Emerson's lectures and the statement was in the writeup. Odd, isn't it, that the most often-quoted statement of a great writer owes its preservation to an unknown newspaper reporter?

F.D.R.'s biographers declare that he did not say, in connection with plans for one of the national conventions, "Clear it with Harry"—(meaning Harry Hopkins)—but writers and speakers keep on saying he said it.

And Pershing did not declare, upon landing in France with the first American troops in World War I, "Lafayette, we are here." It was said by a major but Pershing was present.

Just what is a fellow to believe, anyhow?

Bible Verse to Study

"Return, ye backsliding children, and I will heal your backslidings."

1. Who uttered the above reproach?
2. To whom was it directed?
3. By what nickname was this prophet known?
4. Where may this statement be found?

BIBLE VERSE ANSWERS:

1. God, through Jeremiah the prophet.
2. Israel.
3. The "Weeping Prophet."
4. Jeremiah 3:22a.

Experts say U. S. needs 215,000 box cars in war.

City of Canyon
Street Paving Program

The City Commission urges your support, cooperation, and participation in the following street paving program to be carried out by the city during the next year.

The program is based on an estimated 60 block program on a first-come first-served basis.

ALL PROPERTY OWNERS INTERESTED IN HAVING THEIR STREET FRONTAGE PAVED SHOULD MAKE THEIR WISHES KNOWN TO THE CITY HALL.

Paving will be done only when the street to be paved will tie onto existing paving and only when all property owners in each block to be paved agree to participate 100%. There will be no leave-outs on paving. Curb and gutter will be optional with the property owners, but should be put in where possible.

In order to have a paving program at this reduced cost it will be necessary for the city to excavate, caliche and prepare the base. The topping will be done in the spring by a reliable contractor. The specifications for surfacing will be the same as the state requires on farm-to-market roads. The city plans to begin work on the base within the next month with the work to continue throughout the winter.

To qualify a block for paving all property owners, having property fronting on said street, must make payment in full to the city for their pro-rata share of the paving cost. This money to be deposited in a special account to be known as the City of Canyon Paving Fund. This money to be used only for the purpose of paying the contractor upon completion, and acceptance by the City Commission, of the paving.

The cost of the completed paving will be forty-five cents (.45) per lineal front foot. Cost of curb and gutter, if desired, will approximate \$1.30 per front foot, a definite price cannot be obtained until some estimate of quantity is known. Engineering for street paving and curb and gutter to be furnished by the city and is included in the prices quoted above.

The City Hall will help those interested in working up their blocks for paving by furnishing property owner's names along with the front footage involved.

All records and receipts will be kept at the City Hall and the money will be deposited in the First National Bank in Canyon.

A limited number of city maps are available at the City Hall for interested property owners.

Oct. 25 Deadline for Hybrid Corn Reports

COLLEGE STATION—Corn producers who enrolled last spring in the Texas Hybrid Corn Production program are reminded by Extension Agronomist Ben Spears that reporting time is near.

While the final date for submitting reports, Oct. 25, is still several weeks away, he says participants should get their records in to him just as soon as the weighing and tabulations are made.

Early reports from over the

state indicate that yields will be good. Weather conditions after the late freeze were favorable for top production, and Spears is expecting many yields in excess of 100 bushels an acre.

He says, as has been the case in years past, producers who planted good seed, properly prepared the soil and used plenty of the right kinds of fertilizer and proper cultural methods are coming through with the best corn crops.

Spears encourages all farmers who have enrolled in the program to complete their report forms and pass them on to the

local county agent for transmittal to the state office.

The state selection committee will commence their work of naming the 1955 winners just as soon as possible after the Oct. 25 closing date.

The Commerce Department reported that the rise in income and spending, which hit record levels in the first half of 1955, was being maintained during the summer.

Bureaucratic methods and peasant stubbornness have brought Soviet agriculture to a crisis, a survey indicated.

Two New Members Join Lions Club

Two new members were initiated into the Canyon Lions Club last Wednesday.

They are Larry Byrnes and David Horn. The Rev. Strauss Atkinson welcomed the new members and presented lapel buttons to them.

Eagle Coach Guy Harrison told the club of the high school football organization, and commented on the season's chances.

"Right now we've got higher morale and better team spirit than I've ever seen before," the coach said.

Visitors were Denver Cornelius of Borger and Normand Madore of Canyon.

1. Whom did Dick Donovan pitch for most of last year?
2. When is the Army-Navy game this year?
3. How old is Vic Seixas?
4. Who won the Darlington 500-mile stock car race recently?
5. When does the World Series start this month?

THE ANSWERS:

1. The Atlanta Crackers.
2. Nov. 26th.
3. 32.
4. Herb Thomas
5. September 28.

Once again, crops foil United States controls.

Fertilizer Sales Steady for Year

COLLEGE STATION—Sales of all fertilizers throughout Texas Jan. 1-June 30, inclusive, totaled 375,177 tons against 374,308 tons during the first six months of 1954.

According to Dr. J. F. Fudge, state chemist, this "very slight increase was due mainly to enlarged sales of materials — from 154,197 tons in 1954 to 167,341 this year." At the same time tonnage of mixed goods dropped six per cent below that of last year, or 207,836 tons this year and 220,111 tons in the first six months of 1954.

Notwithstanding, these totals represent, respectively, 55 per cent of the total tonnage sold the past spring and 59 per cent in the same period one year ago.

Indicating trends, Dr. Fudge says that the 1955 sales of the 5-10-5 grade (93,544 tons) were about 25,000 tons lower than five years ago, while more than 37,000 tons of higher analyses grades of the 1-2-1 ratio were sold this year compared with only 14,000 tons five years ago.

"Over a five-year period sales of the 10-10-10 and higher grades of the 1-1-1 ratio have increased greatly," the state chemist observes. "Stated in another way, the 130,904 tons of goods of the 1-2-1 ratio contained plant food equivalent to 169,142 tons of 5-10-5. The 8,116 tons of grades of the 1-1-0 contained plant food equivalent to 11,385 tons of 10-10-0. These data emphasized the strong trend toward the use of fertilizers of higher analyses."

Commenting on regional distribution, Dr. Fudge says that East Texas absorbed more than one-half of the total tonnage of mixed goods sold in the state. East Texas, Gulf Coast and North Central Texas combined used 83 per cent of the mixed goods.

Moreover, East Texas used more than one-half of the ammonium nitrate bought throughout the state; Gulf Coast region about one-third of the ammonium sulphate and one-half of the unacidulated phosphate and ammonium phosphates; and West Texas used more than one-half of the anhydrous ammonia and normal superphosphate.

SNAKES IN PAIRS

Bloomsburg, Pa. — Proving the saying that rattlesnakes come "in pairs," Mrs. Arlo Sweppenheiser killed a 35-inch rattlesnake in her backyard with a shovel. Still somewhat shaken by her experience, she started out her back door only to find a bigger rattler coiled on the back doorstep. Carl Hunsinger, a neighbor, shot it. This one measured 40 inches.

Re-enlistments in the armed forces show a gain.

RUN DOWN and DOG TIRED?

*These symptoms if due to a vitamin deficiency occur only when daily intake of vitamins B₁, B₂, and niacin is less than minimum daily requirements over a prolonged period. In themselves, they do not prove a dietary deficiency as they may have other causes or be due to functional conditions.

Wake up your strength and energy with BEXEL SPECIAL FORMULA

THE HIGH-POTENCY CAPSULE THAT SUPPLIES IRON FOR RICH RED BLOOD

If you've been feeling dragged-out, dead on your feet, nervous or depressed; if you're troubled with insomnia, digestive upsets or constipation; if you've lost your appetite* you may be suffering from iron-and-vitamin starvation over a prolonged period.

BEXEL supplies the supplementary quantities of iron your body may need to build rich red blood . . . to pour wonderful new energy and vitality into your whole system.

ASK YOUR DOCTOR

Each high-potency BEXEL Special Formula capsule gives you 5 times the daily minimum requirements of iron; more than the daily minimum requirements of all the B-vitamins that doctors will tell you are essential for proper nutrition; plus new Vitamin B₁₂ and trace minerals. These wonderfully strengthening capsules are highly recommended for mothers-to-be when a sufficiency of iron and vitamins is vitally important to their health.

IF YOU ARE OVER 40

As you grow older, be sure you are getting the essential vitamins and iron to keep your

strength up, your body functioning properly. With BEXEL Special Formula, the high-potency capsule, you get blood-building and strengthening factors you may need after 40.

ONLY 6¢ A DAY FOR HIGH POTENCY
BEXEL
SPECIAL FORMULA CAPSULES

AMAZING MONEY-BACK GUARANTEE

Get an economical bottle of BEXEL Special Formula from your druggist. Take 1 capsule daily. If within 30 days you don't feel wonderfully better . . . your money back in full!

NOTHING IN ITS FIELD CAN MATCH CHEVROLET FOR ACCELERATION!

Great Features back up Chevrolet Performance: Anti-Dive Braking—Ball-Race Steering—Out-rigger Rear Springs—Body by Fisher—12-Volt Electrical System—Nine Engine-Drive Choices.

When you need a quick sprint for safer passing, this V8 delivers!

It's pure dynamite, and you have to go way, way up the price ladder before you ever find its equal.

The proof was burned into the sands of Daytona Beach at the NASCAR* trials earlier this year. In acceleration tests, Chevrolet walked away from everything else in its field. Plus all the high-priced cars except one!

It's the big reason Chevrolet's been taking all comers in short track stock car events this season. Sizzling acceleration along with handling ease and cornering ability—things that mean safer, happier highway driving. Come on in and let a new Chevrolet show you what we mean.

*National Association for Stock Car Auto Racing

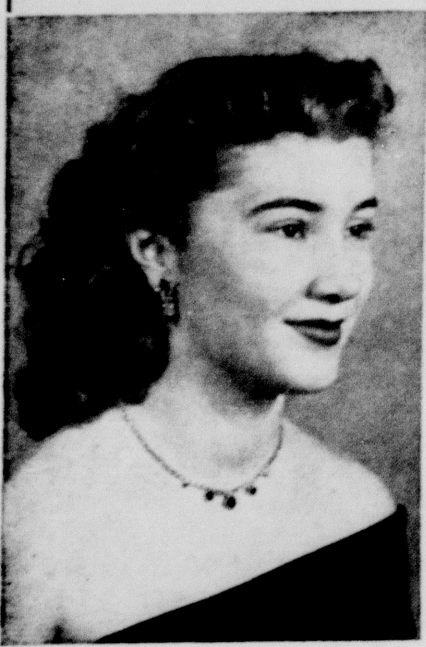

Drive with care . . . EVERYWHERE!

NOW'S THE TIME TO BUY! LOW PRICES—BIG DEALS! ENJOY A NEW CHEVROLET

IMPERIAL CHEVROLET COMPANY

Engaged

KATHERINE FURLOW

The engagement and approaching marriage of Katherine Furlow to Terry Petty is being announced by her parents, Mr. and Mrs. R. T. Furlow. Terry Petty is the son of Mrs. L. R. Bratton of Plainview. The ceremony is to be Oct. 29 at the Joseph A. Hill Chapel.

Mr. and Mrs. Ray Fullerton spent several days last week vacationing in the mountains of New Mexico.

Luncheon Honors Peggy Bonds

Peggy Bonds, bride-elect of James Scott, was honored with a luncheon Saturday, Sept. 17, in the home of Mrs. Robert McClelland. Hostesses were Mrs. R. L. Rhoten and Janelda Cunningham.

An attractive arrangement of yellow chrysanthemums formed the centerpiece for the serving table. Seated were the honoree, Mrs. Marvin Axe, Barbara Beck, Mrs. Duane Howard, Frances Cunningham, Mrs. McClelland and the hostesses.

Mr. and Mrs. Jeff Wallace of Albany spent the weekend with Mrs. Wallace's brother and family, the John Matthews. Mrs. J. W. Matthews of Iowa Park, mother of Mrs. Wallace and Mr. Matthews, has been visiting in Canyon for three weeks. She left with the Wallaces Sunday to visit in her daughter's home.

Enrolled in Southwestern Bible Institute at Waxahachie, Texas, are Jimmie Lee Cooper, Gaylene Pettit, Arlene and Glennetta Johnson and Shirley Peppard of Canyon.

Entered in the Wheeler County Fair this past week at Shamrock were pictures of LaNelle Gum. She won two first places and one second rating.

A baby girl was born to Mr. and Mrs. Nathan D. Watson Sept. 14. Mr. and Mrs. Eugene Podzemny are the parents of a daughter born Sept. 17.

Mr. and Mrs. Peny Gene Connell of Amarillo are parents of a baby girl born Sept. 17.

A son was born to Mr. and Mrs. L. B. Wolfington of Amarillo Sept. 20.

A daughter was born to Mr. and Mrs. Martin B. Jones of Tulsa Sept. 20.

Burney Fall is visiting Mr. and Mrs. Glen Costley. He is making satisfactory improvement following a recent accident.

Grand Jury Calls for Better Jail; More Policemen for City, County

The April Term Randall County Grand Jury Monday issued a report to District Judge Gene Jordan calling for provision of "adequate" jail space for the county.

The report also endorsed the report of the January term grand jury which recommended more law enforcement officers be hired by the county and the City of Canyon.

It passed three cases to the next session of the grand jury, which will be empaneled Monday. They were the cases of Billy Jack Murrell, charged with driving while intoxicated; Wayne Griffin, charged with assault with intent to kill; and A. B. Duncan, charged with knowingly filing a forged instrument.

The text of the report follows:

1. LAW ENFORCEMENT PERSONNEL

We find the report of the previous grand jury to contain our opinions regarding the hiring of additional deputies in the sheriff's department of the county and one additional man in the City of Canyon police force. Therefore, we concur with this recommendation.

2. FACILITIES FOR CARING FOR PRISONERS

The grand jury has inspected the jail facilities of the county and find them inadequate in the following ways:

(a) No provision has been made for the care of juveniles.

(b) No provision has been made for the care of females.

(c) No provision has been made for the separation of prisoners, that is, drunks, drug addicts, and all other prisoners are confined in one cell block that is adequate for five prisoners.

(d) We find the jail security to be totally inadequate.

After considering the present fiscal condition of the county, which information was given us by the County Auditor, we make the following recommendation:

That the Commissioners Court of Randall County take immediate steps to ascertain the jail needs of the county, and, further, that the court proceed to provide a jail that will be adequate for the county, giving consideration to the growth factors of the county.

The following cases have been considered and are passed to the next grand jury for action:

Billy Jack Murrell, charged DWI; Wayne Griffin, charged with assault to kill.

These cases have been considered, but due to additional information needed, could not be passed on.

The case of A. B. Duncan, charged with filing a forged instrument: This case is passed to the next grand jury, since the present grand jury has had insufficient time to investigate thoroughly, to assure justice to all concerned.

Respectfully submitted: E. H. Klein, foreman William R. Wilson, clerk

The January term report recommended that the City of Canyon employ enough officers to enable a patrol car to be on duty 24 hours a day. It also recommended that two more deputies be added to the sheriff's department and that the City of Amarillo provide more adequate nighttime patrol.

Fairview Breezes

We had one-half inch of rain Saturday evening. Frank Rogers reports one inch of moisture.

Mr. and Mrs. Woodrow Wesley and boys attended Bobbie Boid's wedding at Clovis the past Sunday week.

S. F. Sharpes went to the doctor Friday for a check-up.

Helping J. W. Wesley cut feed last Wednesday was G. E. Wesley.

Mr. and Mrs. J. W. Wesley went to Littlefield Friday morning and from there they were accompanied by Mr. and Mrs. E. E. Wesley and Artis Sue and Mr. and Mrs. D. L. Whitson, Jimmy and Dale on a trip to Austin and San Antonio. The group saw the Texas Tech-Texas University game. In the game, Arlen Wesley received a cut in his leg which required 14 stitches. Chances are that he will not be playing Saturday.

Lavena Amerson entertained her B.T. class Saturday evening with a weiner roast and hay ride.

Mr. and Mrs. Don Stoneberg and son, Gary, arrived at the paternal Frank Rogers home Thursday morning for a vacation.

Rev. Landroop visited Sunday in the H. H. Shipman home.

Almost everyone from our community attended the Tri-State Fair Monday.

Those visiting in the Frank Rogers home Monday evening were S. F. Sharpes, Mr. and Mrs. J. W. Wesley, Lavena Amerson, Mr. and Mrs. G. E. Wesley, Mr. and Mrs. Gordon Foster and children, and Priestly Rogers.

Mr. and Mrs. T. A. Wiggins of Fort Worth are visiting in the E. C. Penick home. Mr. Wiggins is a brother of Mrs. Penick.

ing of South Amarillo.

County Judge Roy Joe Stevens said one additional deputy, Bill Wilson, was hired following the January report.

In August the commissioners ordered that a small room in the sheriff's office be converted into a cell for detention of female prisoners or juveniles. The court is also studying plans for remodeling the present jail, or for building a new jail and sheriff's office.

A docket call for the September session of the 47th District Court will be held Monday when the new grand jury is empaneled.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS
OF THE 18TH CONGRESSIONAL DISTRICT

Back To The Capital City
The Rogers family arrived back in the Capital City at 11:59 p. m., Sept. 8th. It was the end of a long day and a long trip.

There is a common expression in this section of the country that a trip to the south or southwest is "down hill." This no doubt finds its origin in the fact that the top side of a map is north and the lower side south.

Although the Panhandle is well over 2,000 feet higher above sea level than most of the eastern section, I must admit that the Rogers family found the trip home to the Panhandle "down hill and easy sailing all the way."

The trip back to Washington was up hill all the way and I don't know whether the children dragging their feet had anything to do with it, but it was sure a hard pull.

This is true no matter how the trip is made. I had been all ways but one so we came back that route.

We left Texas at Texarkana, crossed Louisiana, Mississippi, Alabama, turned north through Georgia into the Carolinas, both North and South, anti-gogglin' across the State of Virginia to Richmond and north to Washington.

Our last day on the road is

Odds 'N' Ends Store

Used Furniture and Appliances.

North side of old Bank building

Owned and Operated by COLLEGE STUDENTS

one of the most important ones in our life, not only because we arrived back in Washington safely, but because it is the birthday of our youngest.

We started the day at Seneca, South Carolina, which is about 40 miles from Greenville. First on the schedule was the fanfare and trumpet blowing that always takes place in the Rogers household on everyone's birthday, including the old man's.

Mary Catherine was seven. Four of her birthdays have been celebrated on the road. Her mother told her that she was the only girl she had ever known who had had birthdays all over the United States. This pleased Mary C. very much.

Many interesting things happened on the trip, some humorous and some otherwise. We drove into a filling station in a southern town and the minute the wheels stopped, Robert the eight year old was out and gone as was his usual practice.

Just as we started to leave Jean counted heads and found only five. She jumped out of the car in a startled manner and said, "Where is Robert?"

A short, fat negro attendant grinned and said, "He quit." Jean said, "I'm talking about my Robert, not yours." We found him at the funny book stand and departed in good order.

Highways
A trip through 17 states and the District of Columbia makes one feel that he is pretty well versed on the highway situation. It is not difficult to point out many of the highway defects in the several states.

However, it is very difficult to provide an over-all solution to the many arms of the problems involved. The Texas highways, in my opinion, are far and away ahead of most states.

In many of the states the highways are poor and the traffic regulations are cumbersome. There must be some drastic changes, about which much complaint can be expected.

However, we would be foolish to spend money on a gigantic high-

Weyerhaeuser 4-Square kiln-dried LUMBER PROTECTS YOUR BUILDING INVESTMENT

Whether you are building, remodeling, or repairing—you protect your building investment by using Weyerhaeuser 4-Square kiln-dried lumber. These 4 important advantages show why dry lumber results in better building value:

1. Kiln-dried lumber is durable—Some of the oldest buildings in this country are made of seasoned wood—as sound now as the day they were completed.
2. Kiln-dried lumber is dependable—Removing moisture before surfacing helps to strengthen and stabilize the lumber so that it resists change after installation.
3. Kiln-dried lumber is easy to work—Sawing, sanding, drilling, and finishing are easy when wood is properly seasoned.
4. Kiln-dried lumber is strong—Structural stability is gained. Also, nails and screws hold better in kiln-dried lumber—thus assuring firm, tight joints.

All of these advantages, and more, are yours with Weyerhaeuser 4-Square kiln-dried lumber. Every piece bearing this brand name has been carefully seasoned to give you uniformly high quality. Before placing your next order for lumber—come in and let us show you how dry lumber protects your building investment.

BURROW LUMBER CO.

MOCK TURTLES ARE DUCK SOUP—That they are, at Florham Park, N.J. Built-in steps and tunnel under big turtle add greatly to play value of the concrete creation for youngsters at the Sun Valley Swim Club, and smaller turtle is ideal for riding by the smaller fry.

Legume Inoculation Improves Crop Yield

COLLEGE STATION—The cost is small but the returns, in terms of increased yields and better quality legume crops, are great.

Yet, says L. C. Coffey, extension agronomist, farmers still plant legumes without spending the few cents an acre required to do the inoculating job.

He says 50 cents will buy the inoculant needed to take care of enough alfalfa or clover seed to plant up to five acres. Less than 25 cents an acre will inoculate winter peas or vetch.

Coffey points out that different strains of bacteria are effective on different classes of legumes. Be sure and get the culture recommended for the crop to be planted.

The seed inoculants contain beneficial live bacteria. The bacteria attach themselves to the roots of leguminous plants where they absorb energy from the plant and in turn help the plant to take nitrogen from the air. They do this by a process known as "nitrogen fixing."

Both effective and ineffective bacteria may occur naturally in the soil but Coffey says why take a chance on lower yields and quality by not inoculating the seed.

He says seed inoculants can be obtained from seed dealers and that it is important to follow the directions on the container. The seed should be planted soon after it is treated.

Steel output falls short of records for July.

LIPSTICK LOGIC

BY LOUISE ALLEN

Any woman who thinks her home is her castle has only to start re-furnishing a room or two to find out how easily she can be deposed.

When the workmen first move in, she'll never suspect what she is in for. They ask where things are, move gingerly around the work area, take care to sweep up trash. For the first few days, she can fool herself into thinking they won't be in the way.

But soon, the furniture must be stacked in a part of the house that isn't being repaired. Then the rugs get rolled up in the center of the rooms, and stepped on so as to break the creases. The workmen invade the hall to get to the telephone. They borrow the scissors, the screw driver, a butcher knife.

Before long, the kitchen sink is conscripted for washing off plaster and cleaning brushes. Hardwood floors are treated as if they were the bare boards of an unfinished house. And a thick layer of plaster-white dust settles over the surface of the housewife's once orderly domain.

But the wear and tear on the furniture is nothing to the wear and tear on her nerves. What was her castle a few days ago becomes a "job" for half a dozen total strangers, who may suddenly appear in any part of the house. The bits of conversation they overhear get them interested in the living that goes on here. They begin to ask questions, take an active part in the family life.

By the end of a week, the proud little woman, whose word was law in her own private world, becomes a cowering refugee from invaders with ladders, paint buckets and nail-studded boards.

Moscow recently announced that some foreign correspondents in the Soviet capital would be allowed henceforth to file their dispatches without submitting them to censorship.

The Defense Department has ordered the closing of 14 service plants as part of a general program reducing manufacturing and commercial operations.

Drawstring converts tunic, at left, into a dinner dress of pink faille. It has a high, collarless neckline and dolman sleeves. At right, de Givenchy shows his signature drawstring at collarless neckline of long-sleeved bolero in steel-gray Shetland wool. Sheath dress matches. Muff and hat are of beaver. **THIS IS AN EXCLUSIVE, COPYRIGHTED FASHION. COPYING STRICTLY FORBIDDEN.**

Three District 1AA Teams Changed To AAA Classification in 1956

Reclassification of schools by the Texas Interscholastic League will take three high schools from District 1AA, the district Canyon is in.

Beginning next fall, Hereford, Dumas and Phillips will be classified in AAA for athletics.

The reclassification was accomplished by the league in an attempt to provide 16 districts in both Class AAAA and AAA, where previously there have been only eight.

The Canyon Eagles will remain

in AA classification.

Enrollment figures for conference assignments are:

AAAA	845 and up
AAA	370 to 845
AA	200 to 270
A	120 to 200
B	119 and under

High schools with less than 100 enrollment may enter teams in six-man.

Assignments to conferences will be for a two-year period, and no new lists will be issued on odd-numbered years except to take care of new or consolidated schools.

In addition, no school may be voted into a higher classification.

The league executive committee said it recommended a minimum of five teams in a district, but the recommendation is not mandatory.

The closing date for certifying AAAA and AAA district champions will be moved up one week next year so championship games will not fall during Christmas holidays.

This will make the closing date for certifying district champions Nov. 24, 1956, and Nov. 23, 1957.

Eagle Coach Guy Harrison said last week he would like to continue scheduling games with the three area teams that will be raised in classification—especially with Phillips.

U. S. made conveyor belts stretch around world.

News In Canyon 25 Years Ago

(Taken from the files of The Canyon News of from Sept. 18, 1930)

Canyon Public Schools dismissed Thursday so pupils could attend the Tri-State Fair in Amarillo on Canyon Day.

The dormitories at the college were beginning to fill as freshmen enrolled at the end of the week. Upperclassmen were scheduled to register the following week.

Surveyors for the proposed Texas and Pacific railway extension from Big Spring to Amarillo were working on a line which would intersect the Santa Fe some six miles west of Canyon. The party chief said he had gained the impression that Canyon did not want the railroad and was routing it away from the town.

Randall County was removed from the list of drought disaster counties, according to County Agent W. H. Upchurch.

Law enforcement agencies began a determined fight to clear the highways and streets of cars driving at night with improper lights.

"One of J. E. Goodnight's milk cows died Monday."

The Co-Ed Beauty Shop reopened for the school term, and advertised a shampoo and wave set for \$1.

Wilkinson Tells Club Of Convention Trip

The center of interest for the Palo Duro-Rusk Home Demonstration Club meeting held Sept. 13 was a report by Mrs. Margaret Wilkinson of her trip to the state convention in Fort Worth.

The session was held in the home of Phyllis Dugan with the president, Mrs. Northcutt, presiding.

Refreshments of pie ala-mode and coffee were served to Francis Northcutt, Bessie Faye Marshall, Gladys Marshall, Omalee Lowrey, Helen Reynolds, June Dugan, Ida Dugan, Jewel Barclay, Margaret Wilkinson, Phyllis Dugan, and a visitor, Mrs. Pond.

Chicago barber, 82, estimates that he's cropped 400,000 heads of hair in his 54 years of barbering. And engaged in how many political discussions?

Horse-racing friend of ours, after long practice in diapering the new baby, proudly announces he's come up with a winning "daily double."

Martin and Lewis plan to remain as comedy team.

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. FASTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No gummy, gooey, pasty taste or feeling. Get FASTEETH today at any drug counter.

Farm Exports Up During August

COLLEGE STATION—All U. S. agricultural exports for the month of July were valued at about \$265 million as contrasted with \$213 million for the same month a year earlier.

The 25 per cent gain, says John G. McHaney, extension economist, was chiefly due to government export programs which increased shipments of principal grains, tobacco and some fats and oils. Exports of wheat, corn, grain sorghums, soybeans and cottonseed oil improved.

Cotton exports, points out the economist, were less than half of the July 1954 total. Foreign buyers limited purchases to short-term needs because of uncertainty as to this country's cotton export policy in the new marketing year.

United States agricultural exports for the fiscal year which ended on June 30 totaled \$3,143 million or 7 per cent more than for the previous year.

McHaney says that government programs are expected to continue to give strength to farm exports during the current year. As a result of recently enacted legislation, authority for foreign currency sales by the U. S. Department of Agriculture now amounts to \$1.5 billion for the three-year period ending June 30, 1957.

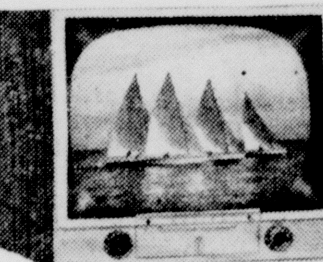

Authority for foreign currency sales by the International Cooperation Administration for the current fiscal year amounts to \$300 million.

These facts coupled with generally favorable business conditions in most foreign countries should help to maintain or increase the present rate of farm exports, says McHaney.

before you buy any automatic washer see the 1956 Whirlpool

IT HAS **2** SEPARATE WASHING ACTIONS TO SAFELY WASH ALL FABRICS AUTOMATICALLY

with beautiful, fully-illuminated **GUIDE LITE CONTROL PANEL**

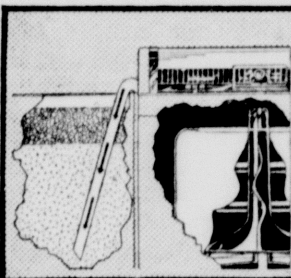

3-Temp Water Selector automatically assures correct water temperature for all materials. Fabric guide eliminates guesswork. Light indicates your selection of water temperature.

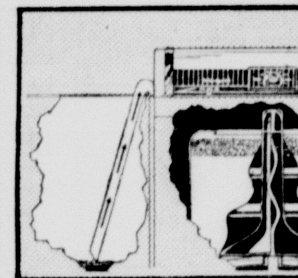

Transparent, Illuminated Timer Dial controls two separate washing actions; (1) normal speed and time for regular washing, and (2) low speed and short time for sheerest fabrics.

3-Level Water Selector automatically saves gallons of water on partial loads. HIGH setting is for a full, 9-lb. load; MED, for a 7-lb. partial load; LOW is for a small 5-lb. load.

ONLY WHIRLPOOL GIVES YOU THESE ADVANTAGES

Hot water is stored after first load.

Only clean hot water is returned for re-use.

Suds-Miser Automatically SAVES OVER 50% of hot water and detergent

Exclusive, built-in, fully-automatic Suds-Miser prevents needless waste of hot sudsy water by storing and returning it automatically for re-use on several wash loads.

ULTRA-VIOLET LAMP

From start to finish, the built-in ultra-violet lamp helps sanitize clothes and gives them a sweet, fresh-air fragrance.

WHIRLPOOL WASHING ACTION

No other automatic washes clothes so clean yet so gently. Whirlpool's superior washing action loosens and removes every trace of soil from a big, 9-lb. load.

PLUS . . .

- 7 Rinses are most thorough yet use less water.
- 5-Year parts warranty on transmission plus many other features you'll want.

CYCLE-TONE SIGNAL

During last minute of operation, Cycle-Tone sounds two short signals to tell you wash is finished; saves time and energy.

Santa Comes in September to Delight Fifth Grader

Straight-faced and serious, Chief of Police George Roden wheeled a brand-new, English-made bicycle into a fifth grade room at the elementary school last Wednesday afternoon.

"Does anyone know who this bike belongs to," he asked. The children studied the bicycle and allowed as how they didn't know, although one boy piped up, "I've seen some just like it but they are old."

"This one is new," Chief Roden said. "And, it belongs to you," he said, pointing at 10-year-old Jay Griffin, son of Mr. and Mrs. E. H. Griffin.

A shocked, unbelieving look came over Jay's face, then he broke into a face-cracking wide smile.

Chief Roden rolled the bicycle over to Jay's desk, and explained the hand brakes, the gear shift and pointed out the handle-bar basket.

"The businessmen around the square decided you needed a new bicycle," Chief Roden told Jay. "I've seen you ride that old rattle-trap across the school crossing so many times, and the men downtown just decided to buy you a new one."

Jay fingered the maroon bicycle,

but couldn't say anything. He stood looking at it, and the tears tried to come into his eyes.

Chief Roden told Jay he would leave it outside where the other bicycles are left, and Jay sat down again.

"What are you going to do with the old one, Jay?" one of his classmates asked.

"We'll push that old one off in a ditch," were Jay's first words. But Chief Roden fixed that problem. He volunteered to take the old one home.

You see, Jay's right leg is of no use to him. Chief Roden said it was paralyzed after a bout with

polio, and Jay keeps it up out of his way with a haggard.

He uses a crutch to walk with, and pedals his bicycle along with only his left leg.

When school was finally out Wednesday, Jay hurried out to his new bicycle, followed by his schoolmates.

He climbed onto the new machine and began to pedal along home. It was hard, because he wasn't used to the new bicycle. Chief Roden followed along to make sure everything was all right.

Within a day, though, Jay was riding his bicycle like an old veteran.

Chief Roden had noticed the dilapidated bicycle Jay had been riding. "I didn't want him to ride a bicycle at all because it isn't safe, but if he was going to ride one, I thought he should have a good one."

"That old one was in bad shape. The brakes wouldn't work and it was all loose," Chief Roden said.

Last Wednesday, he walked around the square telling businessmen about Jay. Within an hour-and-a-half he had enough money to buy the bicycle.

"We sure do have a bunch of big-hearted businessmen," Chief Roden said.

Oratorio Rehearsals Begin Monday Night

The first rehearsal of "The Oratorio Singers" will begin at 7 p. m. Monday in the college auditorium.

To be conducted by Royal Brantley, the singers will present Haydn's "The Creation" early in December, and will be accompanied by the college Symphonette, conducted by William O. Latson.

The rehearsals will be held each Monday night. Brantley is planning for a 200-voice choir, and is inviting singers from Canyon to join the group.

Mr. and Mrs. T. S. Maxwell returned home Sunday after vacationing in different parts of Colorado for a week.

Mr. and Mrs. L. E. Gum visited County Judge and Mrs. Clarence R. Morris in Shamrock last Tuesday. Mrs. Morris is a sister of Mrs. Gum.

Seaman Apprentice David Brandon is home for 10 days after taking his boot training in the Navy at San Diego. David is the son of Mr. and Mrs. L. F. Brandon.

Mr. and Mrs. Earl Holden of Cactus and Delores King of Amarillo spent the weekend in the Jim Carter home.

Mrs. Crews Henry, accompanied by Mrs. T. W. Collins, traveled to Bryan this past week to direct the organization of a local P-T-A. The meeting was held in the Student Union building of Texas A&M College.

Groups To Study Cemetery Details

Three study committees were appointed Tuesday night by Dr. J. A. Hill, chairman of the Randall County Cemetery Association "what to do" committee, to present detailed plans at a meeting in October.

One study committee will draw a plan for taking over Dreamland Cemetery and operating it. The committee will draft a constitution, investigate the legal aspects and recommend by-laws.

Members of that committee are Milton Morris, chairman, Clarence Thompson, Paul Lindsey, Mrs. L. I. Ryars and J. A. Hill. J. D. Barker will be legal advisor.

A second committee was appointed to study the cost of operating the cemetery for past years and to estimate a cost for the next year's operation if a new plan is adopted. The committee will also check the water availability, and recommend future water developments.

On it are Roland Black, chairman, Mutt Myers and Bill Cherry.

The third committee is to study landscaping at Dreamland Cemetery. On it are Mrs. Levi Cole, chairman, W. T. McGregor and Bernard Warren.

The committees will report to the central committee on Oct. 18, and if the reports are adopted, an open meeting of all owners and heirs of spaces in Dreamland Cemetery will be called.

Services Held For Mrs. Smith

Rites to the memory of Mrs. Minnie Smith, a resident of Canyon since 1932, were conducted this afternoon in the First Christian Church by the Rev. Winn R. Matsler, pastor.

Burial was in Dreamland Cemetery under the direction of Griggs-Warren Funeral Home.

Mrs. Smith, 85, died Monday afternoon in Thurmon Convalescent Home in Amarillo, where she had been a patient for several months.

Survivors include one son, John H. Smith, Wetumka, Okla.; two daughters, Mrs. J. E. Hunter, Canyon, and Mrs. Kenneth Gregory, Wetumka; one brother, William Vetter, Bunn, Ark.; nine grandchildren and 10 great-grandchildren.

Happy Lions, P-TA Hold Joint Meeting

The Happy P-TA and Happy Lions Club will meet together at 7:30 p. m. in the school cafeteria.

The joint meeting is the second annual "get acquainted" affair. A barbecue dinner, donated by Mr. and Mrs. Clyde Bradford, will be served.

Any interested person is invited.

Buffaloes--

(Continued from Page 1) and 46-0 at the close of three periods.

Buff third and fourth stringers were used entirely in the second half and played the visitors on even terms.

On the third play from scrimmage, West Texas had its first touchdown. Quarterback Bubba Hillman ran down the line of scrimmage on the split-T option and lateraled to Joe Walden.

Walden picked up excellent downfield blocking and went 53 yards for the touchdown. Tuggle converted.

On Corpus Christi's third play from scrimmage after the kickoff, West Texas scored again. Tarpon quarterback Andy Griffin flipped a pass out to the right side that was intercepted by Hillman.

The West Texas junior pulled it in on Corpus Christi's 40 and raced down the sidelines into the end zone. Tuggle's kick again was perfect.

With 34 seconds left in the first quarter, Charles Sanders went over right guard for four yards and another WT touchdown. Archie Souter booted the extra point.

Only 58 seconds had elapsed in the second period when Walden scampered 34 yards for his second outstanding touchdown run of the evening. Sanders came back midway of the period and scored again from the one-yard marker and Souter wound up first half scoring with a 36-yard dash. Souter's try for extra point after the last score was good: WT 40; Corpus Christi 0.

Dave Corley contributed the winners' last six-pointer midway of the third quarter. He took a handoff from freshman quarterback Bob Davis and ran 34 yards to paydirt. Jim Hadaway's placement was blocked after the snap from center had been fumbled.

Eagles--

(Continued from Page One)

ball on the Canyon 46 on downs. Neblett kept the ball and ran for a touchdown, which was called back for an off sides penalty.

Neblett came back into the game, and Adams made up the lost yard. Britain ran the seven yards for the score, with only 31 seconds gone in the second quarter. Neblett's conversion was good, and the score was 13-0.

Panhandle took the ball following a runback to their 16-yard line, only to lose it on the 25 from a fumble.

Adams and Britain advanced the ball to the one-yard line, but one of the 15-yard penalties killed the drive for a score.

The Panthers fumbled on the 20, and Britain and Adams took the ball back to the one in four plays.

Neblett pushed over for the score and his conversion was good. The score stood at 20-0 with 2:53 left before the half.

At the beginning of the third quarter, Panhandle kicked off to Canyon. The Eagles tried two plays and lost the ball on a fumble on their own 40.

Panhandle quarterback Monty Bell ran 19 yards to the 21. Halfback Larry Hiron made a four-yard try and then a two, which put the ball on the 15.

Bell took over and swept around end to the one, then pushed over for the lone Panhandle score with 2:36 gone in the quarter. Ted Addington's conversion try was no good.

In the fourth series of downs following the kickoff, Bell attempted a pass from the 45-yard line, which was intercepted by Britain.

A penalty on the first play, in which Adams carried to the 32, moved the ball back to the 50. Neblett attempted a pass, Adams ran to the 45, Neblett to the 39 and a penalty put it back on the 44.

Adams took the ball on the next play and ran the 44 yards for a score. Neblett's extra point was good and the score was 27-6 with 2:37 left in the third quarter.

In the waning minutes of the game, Panhandle kicked to the Eagle 18, and Adams took the first play from scrimmage to the 24. Britain ran to the 25, to the 31 and Adams took the ball to the 33. Then Adams started around left end, dropped the ball, which bounced back into his path, caught it and kept on running to the 10 before being overhauled.

Neblett made the other 10 yards for a score and made the conversion. The score stood at 33-6 with 2:10 left to play.

Panhandle played only one series of downs before the game ended.

Adams was the leading ground gainer of the night, with 20 tries for 166 yards—an 8.3 average. His total for the year is 209 yards in 33 tries, averaging 6.33 yards.

Britain ran 19 times for 95 yards, averaging 5 yards per try. His season totals are 32 tries for 145 yards, 4.53 average.

Neblett made 8 tries for 9 yards, averaging slightly over 1 yard. So far this year he has run 11 times for 36 yards for a 3.3 average.

Neblett punted three times for 124 yards—a 41.3 average. Pruett kicked one time for 33 yards. Pruett's season average is 38.7 in six punts, while Neblett's is 36.2 in four tries.

THE BUFFALO FOOD STORE

Mill Iron--

(Continued from Page 1)

chased Mrs. Nance's herd, but none of the cattle in it will be sold at this sale, Peterson said. He said her herd is being held.

The catalogue of the sale says that at the time of the purchase of the 5,842 head in 1954, it was intended that the herd would be reduced because of the amount of grass, help, fence and equipment it takes to handle a herd of that size.

"This sale is a part of that reduction program," the catalogue says. "The cattle were carefully selected and are the best we have."

"The Mill Iron herd of cattle are Herefords built to certain specifications with ruthless disregard for anything but the type, weight, quality and regular production that was aimed for. This was achieved largely through concentration of Colorado Domino blood."

Lunch will be served at the sale on all three days. Walter Jetton of Fort Worth is the caterer.

Auctioneers will be Charles Corley, Walter S. Britten, G. H. Shaw and Gene Watson. Clerks will be Harry Holtzer, Frank Arnold and Frank Reeves.

Randall Bond Sales Above State Average

Randall County reached 68.5 per cent of its quota of sales for U. S. Savings Bonds in August. A total of \$34,806 worth of series E and H bonds were sold. The state average was 66 per cent.

Paving--

(Continued from Page One)

to be used must have plenty of traffic and some heat in order to set correctly. He said the traffic to the school should be enough for the paving to be done this fall.

Other streets in the park will be paved next spring, he said.

So far, only one block of paving has been completely paid for, and Bayne said many neighborhoods are still negotiating.

In order to be eligible for the paving, property owners must pay their share this fall before any work is started. The money is held by the city until the paving is completed.

Barnett Ball of Albuquerque, N. M., spent part of last week here visiting with his mother, Mrs. Irene Ball, and other relatives.

Soil Conservation District Views

Soil Conservation Districts are local units of government operating under state laws. Most districts are about the size of a county.

The Randall-Potter Soil Conservation District is composed of Randall County and a small part of Potter County. Each district is organized and run by the farmers and ranchers living in it.

This district was organized to help farmers and ranchers protect their land. Upon request, the Soil Conservation Service and other federal and state agencies furnish technical, educational, and other types of aid to the district.

The Randall-Potter Soil Conservation District is in the process of working up a program and plan of work for this district, which sets forth all conservation work needed and outlines methods for getting the work done.

The supervisors of this district

wish to point out that each tract of land is different; the soil, slope and degree of erosion and the fertility and physical conditions of soils vary from farm to farm.

The land-capability maps put land into eight broad classes, according to how good the land is and what it can be used for. Of these eight classes, four are suited for cultivation and four are not suited for cultivation.

Below are the descriptions of the eight classes of land:

Class 1. Very good land for cultivation. Nearly level and productive; not subject to erosion. Needs only ordinary farming methods.

Class 2. Good land for cultivation. Usually gently sloping, but only moderate erosion. Some needs drainage, can be farmed safely with easy applied conservation practices.

Class 3. Fairly good land for cultivation. Usually moderately sloping, and subject to water erosion in humid areas. Subject to wind erosion in the Great Plains. Some too wet or too dry for cultivation.

City Featured In Gas Magazine

"Canyon, Texas, The Panhandle Wonderland."

That's the headline on the feature article in the September issue of The Gas Jet, publication of the Pioneer Natural Gas Co. and the Amarillo Oil Co.

In addition to the story the magazine published a series of pictures of Canyon area crops, the college, Canyon homes and company employees here.

Mrs. Hazel Snyder, posed with a display in the Panhandle-Plains Historical Museum, is the cover girl.

vation without drainage or irrigation. Can be farmed safely with intensive conservation practices.

Class 4. Fairly good land that is best suited for pasture or hay, but can safely be cultivated occasionally. Generally, it has steep slopes; often it is shallow or very sandy. Some is in a climate that is too dry for continuous cultivation. It must be handled with great care when cultivated.

Class 5. Land that is too wet or stony or is otherwise not fit for cultivation, but needs only ordinary good management to be used safely for trees or grass.

Class 6. Land that is too steep, eroded, shallow, wet, or dry for cultivation, but is suited for grazing or forestry if carefully managed.

Class 7. Land that is very steep, eroded, rough, shallow, or dry but can be used for forestry or grazing if handled with great care.

Class 8. Land that has some limitations that makes it unfit for cultivation, grazing or forestry but may be valuable for wild life, recreation, or water shed protection. It includes such areas as marshes, deserts, bad lands and mountains.

Czechoslovakia, following the example of the Soviet Union, has announced a reduction in her armed forces. The cut will total 34,000 men and will become effective Dec. 28.

AUSTIN—Granite in the capitol building is more radioactive than the dirt being used by Texas' mushrooming "uranium-sitting" businesses. So say state health department officials.

Landowners near uranium strikes have erected benches and charge patrons \$2 to \$3 an hour to sit with their feet in the supposedly irradiated dirt. Hundreds of people seeking relief from arthritis and other aches have patronized the places.

After analyzing the dirt, Dr. Henry Holle, health commissioner, said that dirt-sitting does no actual harm — except that it may encourage an ill person to delay visiting a physician.

Farm Hearing Slated

Texas farmers can have their say on federal farm policy at a U. S. Senate committee hearing Nov. 5 in Fort Worth.

John C. White, state agriculture commissioner, is arranging the meeting at the request of the committee chairman.

Drought Aid Sought

Federal disaster aid is being sought for Texas' drought-stricken areas.

Gov. Allan Shivers asked President Eisenhower to designate as disaster areas counties to be specified by the U. S. Department of Agriculture state drought committee.

Crop Production Falls

Texas crops are falling below estimates, according to the USDA.

Although above-normal amounts of rain fell in some areas, it did not come where and when it was needed most, said the report. Eastern and southeastern counties, where harvest already had begun, were soaked.

But in the west and northwest, dryland cotton and sorghum fields languished.

Water Application Undecided
Still to be decided upon is the application for more Pedernales River water to irrigate U. S. Sen. Lyndon Johnson's Gillespie County farm.

Originally scheduled in July, hearing before the State Board of Water Engineers has been postponed three times. No new date was set last week.

Downstream landowners had protested that Johnson's water storage already worked a hardship.

Hospitals Approved

Five Texas hospital projects have been approved by the State Board of Health for federal aid money.

They are the Collin County Hospital at McKinney, City Hospital at Graham, city-county health center and All Saints Hospital at Fort Worth, and the Shelby County Hospital at Center.

Short Snorts

Former Deputy Secretary of Defense Robert B. Anderson, once considered a possible gubernatorial candidate, is apparently out of the running. He is to become president of Ventures, Ltd., a Canadian holding company with mineral interests spread over two continents.

Atty. Gen. John Ben Shepperd is the newly-elected president of the 53-member National Association of Attorneys General. He was elevated from vice president at the New Hampshire convention.

Selection of a new Democratic National Committeeman, to replace ousted Wright Morrow, has been postponed by the Democratic State Executive Committee until Oct. 6. Also it will meet in Waco instead of Fort Worth.

Over the weekend, Gov. Allan Shivers attended his first meeting of the National Civil Defense Advisory Commission, to which he was appointed by President Eisen-

Aprons Exchanged At Wayside HDC

The Wayside Home Demonstration Club met at the church Sept. 15 with Mrs. A. J. Newsom as hostess.

The president called the meeting to order. Mrs. Bessie Lane offered the prayer, the secretary read the minutes of the last meeting and called the roll.

Different crafts were worked on during the afternoon, such as leather, sewing and painting. Aprons were exchanged during the recreation period.

Refreshments were served to Mrs. Leroy Roberts, Mrs. Melton McGehee, Mrs. Floyd Adams, Mrs. Henry Hamblen, Mrs. C. D. Rogers, Mrs. James Bible, Mrs. Paul Wetzel, Mrs. Bill Allen, Mrs. Bessie Lane and several small children.

hower. It was held in Omaha, Neb.

Mrs. Mary Joe Carroll, wife of a UT history professor, made feminine legal history by emerging as high scorer in state bar exams. She works for the Austin law firm of Looney, Clark and Moorhead.

Texas' new Advisory Committee on Atomic Energy, created by the Legislature, was appointed by Governor Shivers, with Dallas attorney Frank Norton as chairman. Its 17 members were selected from major fields of actual and potential activity in atomic energy research, development and application.

Texas received another batch of 157,644 "shots" of Salk polio vaccine from Eli Lilly and Co. of Indianapolis. It went direct to commercial drug channels, to be used outside the school program, on doctors' prescriptions.

Irving school teachers, accused of "going on strike" in protest when their superintendent was temporarily fired, won a victory in district court in Austin. Judge Jack Roberts denied an application of Irving taxpayers seeking to compel Commissioner of Education J. W. Edgar to forfeit the teachers' certificates. Judge Roberts ruled that the plaintiffs had no "justifiable interest" in the matter, and that the courts probably had no jurisdiction.

Texas Turnpike Authority received a low bid of \$1,856,822.07 on the first unit of construction of the Dallas-Fort Worth toll expressway. It was made by Austin Bridge Company and Austin Road Company, both of Dallas.

Lyle C. Harris, longtime member of the Board of Pardons and Paroles, died only two months after his appointment for a new six-year term.

Adlai Stevenson will make a non-political speech in Austin on Sept. 28 in UT's Gregory gym.

Texas contractors look to 1956 as one of their biggest years in history. Future building projects already approved by federal, state and local government units total \$1,760,909,219.00. Construction during the first eight months of 1955 totaled \$613,610,219.00. That's \$58,000,000.00 over the same period last year.

Low bids totaling \$12,960,408.00 on 46 road building projects were tabulated last week by the State Highway Department.

Bond issues hit an all-time high of \$426,000,000.00 on public works projects in Texas cities, counties and school districts during the past year.

Weatherman in Oklahoma City, reports that the office roof sprang a leak during a recent thunderstorm. Fellow's nearly out of his mind. No one he can call up to blame for lack of information about the storm.

President Ramon Magsaysay recently won two victories in his campaign to achieve unchallenged political leadership of the Philippines.

Subsidy payments to potato growers are expected to be ready by Sept. 26. The plan involves diversion of culs to production of starch, animal feeds and flour.

City of Canyon Street Paving Program

The City Commission urges your support, cooperation, and participation in the following street paving program to be carried out by the city during the next year.

The program is based on an estimated 60 block program on a first-come first-served basis.

ALL PROPERTY OWNERS INTERESTED IN HAVING THEIR STREET FRONTAGE PAVED SHOULD MAKE THEIR WISHES KNOWN TO THE CITY HALL.

Paving will be done only when the street to be paved will tie onto existing paving and only when all property owners in each block to be paved agree to participate 100%. There will be no leave-outs on paving. Curb and gutter will be optional with the property owners, but should be put in where possible.

In order to have a paving program at this reduced cost it will be necessary for the city to excavate, caliche and prepare the base. The topping will be done in the spring by a reliable contractor. The specifications for surfacing will be the same as the state requires on farm-to-market roads. The city plans to begin work on the base within the next month with the work to continue throughout the winter.

To qualify a block for paving all property owners, having property fronting on said street, must make payment in full to the city for their pro-rata share of the paving cost. This money to be deposited in a special account to be known as the City of Canyon Paving Fund. This money to be used only for the purpose of paying the contractor upon completion, and acceptance by the City Commission, of the paving.

The cost of the completed paving will be forty-five cents (.45) per lineal front foot. Cost of curb and gutter, if desired, will approximate \$1.30 per front foot, a definite price cannot be obtained until some estimate of quantity is known. Engineering for street paving and curb and gutter to be furnished by the city and is included in the prices quoted above.

The City Hall will help those interested in working up their blocks for paving by furnishing property owner's names along with the front footage involved.

All records and receipts will be kept at the City Hall and the money will be deposited in the First National Bank in Canyon.

A limited number of city maps are available at the City Hall for interested property owners.

IMPERIAL CHEVROLET CO.

Around the Town..

By Mrs. Arthur C. Haley, Jr.,

Mrs. T. V. Reeves left last week for the west coast where she will board The Cingalese Prince, a 10,000 ton merchant vessel of the Furness line, for the Far East. Countries she will visit include the Philippines, Japan, Hong Kong, China, Malaya, the United States of Indonesia (Java, Sumatra, Borneo), Indochina, Ceylon, Egypt, Viet Nam, Canada, Eastern United States, Canal Zone, and back to the west coast. She will cover about 25,000 miles in five months time. The Cingalese Prince, a British concern, carries only 12 passengers on this voyage. Three of these are from Texas.

Mrs. Reeves stated that for a long time she had been interested in the region vaguely known as the "Southeast Asia." So when this opportunity to make the trip came she gladly accepted. "Since early spring, I have increased my reading about the many places we will visit and have talked to as many people as I could who have been there. Our stops include 33 ports and the stays range from one to 10 days in each place," said Mrs. Reeves.

Upon her return to the west coast, she is planning to visit several counselling centers before returning to Canyon and her counselling work.

One of our nicest assets in the state is the roadside parks that the highway department developed. The one south of Canyon has cars there every time you pass. Most out-of-state families stop to rest, young people in groups use it for a picnic spot, while others go to fish. The place is well-kept considering that people are careless about leaving things in good order. This park was developed through

the vision of a highway supervisor named Hodges. It was formerly an unsightly dump ground.

Mrs. K. E. Hines brought us some fresh vegetables from her garden Friday. She has a "lemon" cucumber which is delicious. It is round and resembles a lemon. The cucumber is crisp and is quite tasty. This seed was brought from Syria. Another cucumber was the "Quay." It makes delicious bread and butter pickles because it is so crisp.

The travelers from Europe arrived in New York Friday and arrived in Canyon Sunday. Mrs. Warwick will be resuming this column next week. It has been fun writing the column while she was gone, but I am quite happy to turn it back to her. She will tell you all about the trip and she might mention that the Sheffys spent the night in a hotel room that Napoleon occupied. If you see Dr. Sheffy going around with his hand stuck in his coat, you'll know why.

Speaking of travelers, Florence Marie Coffee, daughter of Mr. and Mrs. Herschel Coffee, spent the summer in Brazil. She was one of a group of 20 college students who spent the summer in an American-Brazilian student work camp. They spent one month in camp and one month traveling about Brazil. Florence left Canyon June 18. The group left the states June 24 and returned Sept. 2. She left last Wednesday for the University of Texas where she is a student.

The Presbyterian women of the Amarillo Presbytery met Sept. 15 in Canyon for an executive board meeting and a day of leadership training. Between 80 and 90 women attended the meeting. Twenty different churches of the district were represented. Mrs. Lee Foster is president of the organization.

Mrs. Alice Vigne is teaching in Tucson, Ariz. F. A. Pierce returned last week from visiting with his daughter and her small daughter, Alicia.

Mary Moreman, daughter of Mrs. Lula Belle Moreman, has accepted a position teaching in the Univer-

MARIETA JANE SANDERS

Mr. and Mrs. Milton Sanders are announcing the engagement and approaching marriage of their daughter, Marieta Jane, to Roy H. Gwyn, son of Mr. and Mrs. Homer R. Gwyn of Wildorado. A late October wedding is planned.

city of Washington at Seattle. Mrs. Moreman left last week to join her daughter after spending a part of the summer with her sisters, Mrs. E. M. Myers and Mrs. F. A. Pierce.

After viewing the exhibits by the young people of Randall County at the Tri-State Fair, we know that none of those industrious students will ever be on the juvenile delinquent list. They are too busy contributing to the well being of the nation. Congratulations to all who entered exhibits at the fair.

While on the subject of the Fair, it would be nice not to have Canyon Day on the first day. Some of the rides, exhibits, etc., are not ready the first day so Canyonites miss those. Canyon has had the first day for a number of years.

Mr. and Mrs. Fred Richards are building a new home on 16 acres about a mile west of Canyon. The floor plan includes four bedrooms, two baths, kitchen, dining room and living room with a woodburning fireplace. A double garage is attached to the red brick home which has a white trim and white roof.

The Richards moved here this fall from Canadian. Mr. Richards is with the Santa Fe and is a conductor on the freight service out of Amarillo. They have five children: Carol, 18, a freshman in college, Beverly, 13, Pamela, 12, Freddy, 5, and Sammy, 3. The Richards are members of the First Methodist Church.

Mrs. K. E. Hines has a recipe for Jambolaya which is very good:

- 1 lb. hamburger
- 1 cup cooked tomatoes
- 1 cup water
- 1 cup rice
- 3 T. fat
- 1 garlic button
- 1 good size onion
- 1/2 in. piece of bay leaf.

Cover with tight lid and steam at low heat for 1/2 hour. Serves 6 people.

This is especially good served with this cabbage slaw:

- 1/2 head grated cabbage
- 1 small onion
- 1/4 cucumber with 1/4 t. salt
- 2 T. mayonnaise
- 1/2 cup grated cheese
- 1/2 mangoe or pepper

LATE

"Helen's train gets in at 4:30."

"Well, I'll be at the station at 5:30."

"Five-thirty?"

"Yes, Helen is always an hour late, whatever she does."

A Dun and Bradstreet survey foresees rise in prices.

Ellis The flavor you want!

Wirt Electric

Shepperd Gives Board Reforms

By JOHN BEN SHEPPERD
Texas Attorney General

(Editor's Note: This is the last of a series of four articles written by the Texas Attorney General on the problem of state board membership in Texas.)

What is the solution to this problem? Should ex-officio board membership be abolished? Should we have a sweeping reorganization of the whole system?

Should we go about it board by board? A number of proposals have been made.

A change in Veterans' Land Board has been voted by the Legislature and will be submitted to the people next year. This change will replace busy elected officials with citizens appointed by the Governor with knowledge of veterans' affairs and finance.

The other Boards relating to the General Land Office and the leasing of lands might also be revised and combined to give the Land Commissioner the benefit of expert advice from citizens.

Perhaps the Legislature could spell out their qualifications—a geologist with many years' experience, an oil business executive, a graduate engineer.

We need experts to take care of leasing the millions of dollars worth of land involved, especially since we have acquired the additional area of the tidelands.

In any case, the leasing, now handled by nine separate boards, among them, the School Land Board, Board for Leasing of Texas Prison Land, Board for Mineral Leases on Lands Owned by State Agencies, and Board for Lease of Texas National Guard Armory Board Lands, could all be handled by one board composed of qualified citizens and the Land Commissioner.

The functions of the Intangible Tax Board could be much better handled by the Comptroller and his staff, and in the same way the Banking Commissioner and his examiners could take over the func-

tions of the Banking Board, with the supervision of citizens on the Finance Commission.

Why not put a doctor on the Anti-Cancer and Pellegra Commission instead of the Attorney General, and replace him on the Employees' Retirement System Board with an able actuary. Similar improvements could be made on every board.

There are several methods of reorganizing these boards.

Some states give the job of administering a program to an elected state official and a purely advisory board is named. This gives the people a direct check on the program.

Or the governor can appoint all the administrators. Thus, we have an elected official who is responsible to the people choosing the heads of state departments.

Or the governor could name the members of boards who would hire and fire the administrator, but he would have the authority to run the program.

In order to decide what should be done about this serious and expensive problem, we need you and your neighbors to talk it over and decide what you want. Talk it over with your elected representatives and get their views.

The citizens of your community may want to get together and make suggestions. Only the people of Texas can change their government, and the ex-officio board system needs a change.

Highland HD Club Elects Officers

Election of officers constituted the business meeting of the Highland Home Demonstration Club which met in the home of Mrs. John Plank Sept. 14.

At the next meeting on Sept. 28th, Mrs. Mona Hildreth, the new home demonstration agent, is to show how to adjust and care for sewing machines. All members and visitors are urged to attend the meeting which is to be at 2:30 in the home of Mrs. Roy Lamb.

Eight European nations have protested in Washington over the recent increase in bicycle import duties.

Announcing New Ford Trucks for '56

Exciting, new functional styling draws all eyes to the finest trucks on the American road—new Ford!

Now! Most horsepower per dollar!

NEW! More horsepower in every model
... up to 26% more! Every engine Short Stroke!

NEW! Bigger capacities! New Driverized Cabs!
New Lifeguard safety features!

NEW! New styling, new "leadership look"!
Over 280 models, from Pickups to BIG JOBS!

Comparison of strokes shows how much piston travel is saved by Short Stroke engine. Result: less friction, less wear, more usable power.

Now—'56 Ford Trucks give you a choice of seven Short Stroke Y-8's and a Short Stroke Six. Horsepower increases up to 26%. More power to get you rolling faster, save you time all the way! More horsepower per dollar than any other truck line—proved by comparisons of net horsepower and suggested list prices of all trucks!

New Driverized Cabs with full-wrap windshields cut driving strain. New Lifeguard features give you protection you can't get in any other truck! See the new Ford Trucks now, at your Ford Dealer's!

No other truck gives you all of these '56 features

NEW! 8-ft. "1/2-ton" Express for bulky loads. Also, 6 1/2-ft. Pickup. GVW 5,000 lbs.

NEW! Deep-center Lifeguard steering wheel helps protect driver from steering column. Only Ford has it! No extra cost.

NEW! Lifeguard door latches give added protection against doors jarring open in an accident.

NEW! 12-volt ignition for better starting, better performance, greater electrical reserve.

NEW! "Special" Y-8 engines with exclusive hood air scoop, 4-barrel carburetor and dual exhaust system... for extra power and performance!

NEW! Tubeless tires run 25° cooler, give extra mileage! Standard on every Ford Truck!

NEW! Sodium-cooled exhaust valves in heavy-duty engines operate as much as 225° cooler!

NEW! Full-wrap windshield standard on all cabs. New full-wrap rear window at low extra cost.

Placing first in the FFA educational exhibits at the Tri-State Fair was the exhibit of the Canyon Future Farmers of America. The display showed the advantages of using legumes in crop rotation.

Sheriff Explains New State Laws

Randall County Sheriff L. S. Johnston last week pointed out several new laws passed by the last session of the legislature.

Chief among the new laws is one raising the fine for selling alcoholic beverages to minors and including the possession or consumption of an alcoholic beverage in any public place, which means practically any place except in a private home.

Any person who sells to a minor is liable for a fine of \$1,000 and a year in jail. Heretofore it has been an offense subject to up to a \$100 fine for a minor to purchase any alcoholic beverage, and that section was retained in the new law.

Another new law makes it illegal to bring or carry intoxicating beverages into any enclosure, stadium or field where athletic events are sponsored or participated in by the public schools of the state. The law permits confiscation of the beverages and provides a fine of \$25 to \$200.

Other new laws providing stiffer penalties included eliminating the fine and making a jail sentence mandatory for the felony offense of enticing a child for immoral purposes, for indecent exposure to a child, and for fondling a child.

Another new law defines the offense of breaking into a vehicle or entering a vehicle with the intent of committing a felony or the crime of theft.

The law specifically provides that the breaking of any glass or other part of the vehicle, the breaking of a latch or lock shall constitute breaking into a vehicle, and the insertion of hands or any part of the body or foreign object through a vent wing or any other opening shall also constitute entering a vehicle.

The speed laws of the state were amended to permit a 55 miles an hour maximum speed limit for vehicles used as Highway Post Offices. It also raises the maximum speed limit of light commercial vehicles such as pickup trucks, to 60 miles an hour.

A proposed amendment to the constitution will make it tougher for professional criminals to get bail. District Judges would have the power to deny bail to persons twice convicted of felonies.

Town and Country Club Has Party

The Town and Country Club held its annual hamburger fry Saturday evening at the home of Mr. and Mrs. Jack Foster.

In the beautiful backyard with all the flowers in full bloom, the group enjoyed fixing their hamburgers over an open grill. Potato chips, olives, pickled onions, tomatoes and toasted cinnamon rolls and coffee completed the menu.

Members present were Mr. and Mrs. Harley Burrus, Mr. and Mrs. Albert Byars, Mr. and Mrs. Glenn Costley, Mr. and Mrs. Arthur Olson, Mr. and Mrs. Tom Lair, Mr. and Mrs. Ed Reynolds, Mr. and Mrs. M. Brown, Mr. and Mrs. John Jennings, who joined the club as new members.

The next meeting will be with Mrs. Tom Lair.

Womans Wesley Bible Class Has Luncheon

A brief history of the year's achievement for the Woman's Wesley Bible Class of the Methodist Church was presented by Mrs. R. E. Foster at their Sept. 8 luncheon. Miss Moss Richardson was hostess to the group at Rest Cottage.

Mrs. Foster announced that there were 15 members on the roll with 10 active members and five semi-active members due to ill health. Lessons during the past year have been from their Adult Bible Course including a study of the Old Testament and of the Four Gospels. Mrs. Foster is teacher of the group.

Mrs. J. A. Wiseman, class president, has been in charge of the 12 covered dish luncheons in the homes of the various members. There are usually from four to six guests at these luncheons.

During the year, two quilts have been quilted for friends, 100 visits made to the sick, 53 dishes taken to shut-ins, and 50 bouquets taken to the sick.

Members present for the luncheon were Mrs. Mittie Workman, Mrs. L. G. McGehee, Mrs. W. W. Hungate, Mrs. Blanche Haines, Mrs. Lucy Lee Gore, Mrs. R. E. Foster, Mrs. Mary Jenkins, Mrs. J. L. Moore, Mrs. Hattie Brasuel, Mrs. Martha Penick, Mrs. R. M. Barton, Mrs. J. A. Wiseman, and Miss Moss Richardson. Guests were Mrs. Ava Jones, Mrs. Ed Gerald, and Rev. and Mrs. Lester L. Hill.

Stephens Is Bride Of B. J. Kennedy

Mr. and Mrs. Cal C. Stephens announce the recent marriage of their daughter, Nell Kay, to Billy Joe Kennedy, son of Mr. and Mrs. H. G. Kennedy. The ceremony was performed in Portales, N. M. Mr. and Mrs. Kennedy are at home in Amarillo where he is employed at the Air Force Base.

Joy Gray Honored With Party Thursday

Joy Gray was honored with a surprise birthday party Thursday evening, Sept. 8, in the home of Fonita Marshall.

Janet Taylor at the piano and Fonita Marshall at the organ furnished the entertainment for the evening.

Sandwiches, mints, nuts, cake and Cokes were served to Janet Taylor, Jean Henson, Emma Coleman, Rachel Smith, Gayle Welser and Nedra Fanning. Mary Gladys Marshall, Patricia Hardaway, Mrs. Marshall and the honoree's mother, Mrs. Gray.

STATE BANK

What a story here! And it's all written down, too. The stub of an old check book! Here is part of the story of what one man wanted most in life. Here he selected and paid for the things dearest to his heart. Here is the measuring stick by which he determined things most valuable to him... his selection, then his check, his money. Mister, *what would the stubs of one of your old check books reveal?* Suppose in the future friends of yours should thumb through it. Would you be proud of your portrait there? Would you be ashamed of the relative importance it gave to the church on the corner? Don't kid yourself. As a good steward of the goodness of God, act on your better judgment today. Your church needs you, and you need your church.

You In The Church...
The Church In You—
Form a combination for good. Every man, woman and child needs the influence of the church. Be a faithful worker. Attend every service.

Real Policewoman

Mrs. George Roden, newly appointed policewoman for Canyon, escorts Jay Griffin across Highway 87 in front of the new elementary school. The wife of the chief of police, Mrs. Roden is a full-fledged police officer, having been commissioned by the mayor. She is empowered to perform the duties of any peace officer, not just those of a school patrolman. But, her primary duties will be directing traffic and safeguarding the children at the school from 8 to 10 a. m., 11 a. m. to 1 p. m., and 2 to 4 p. m.

AAUW Invites Prospects to Tea

All women from an accredited school who are interested in becoming members of the Canyon Branch of the American Association of University Women are cordially invited to attend a tea in the home of Ruth Cross, 2504 6th Ave. from 4 to 6 p. m. Sunday.

Those in doubt as to the affiliation of their school may contact Mrs. Lee Gilmore, Mrs. Lowell Harrison, or Mrs. Cecil Simms.

The 1955 board members for the branch are: Mrs. Lowell Harrison, president; Mrs. Cecil Simms, first vice president and membership chairman; Gladys Armstrong, second vice president and program chairman; Mrs. Lee Gilmore, secretary; and Mrs. Bill Lee, treasurer.

The study group chairmen consist of Mrs. Joe Gibson, education; Darthula Walker, international relations; Ruth Cross, social studies; Mrs. Joe Findley, arts; Claudia Neelley, status of women; Dr. Hattie Anderson, fellowship; and Dr. Ima Barlow, legislative.

Mrs. George Blackwell is in charge of the publicity and Mrs. Dan Sanders will serve as historian for the coming year.

Mrs. Clay Cooper, assisted by Katie McCluney and Elizabeth Cox, will act as social chairman.

The membership committee includes Mrs. Cecil Simms, chairman, Mrs. Dan Sanders, Dr. Ruth Lowes, and Mrs. T. E. Beard.

Japan plans to send top party leader to talks in U. S.

Henrietta Small and R. A. Jacobsen Wed

Henrietta Louise Small became the bride of Roy A. Jacobsen Jr. in a ceremony in Immanuel Lutheran Church in Carlsbad, N. M., at 10 o'clock Tuesday morning, Sept. 6.

Pastor Wilbur Klattenhoff officiated at the double-ring ceremony before an altar decorated with bouquets of white chrysanthemums and emerald leaves. Banked at each side of the altar were arrangements of palms and tall branched candelabra holding white tapers.

The bride is the daughter of Mrs. Erna Small and John Jay Small. The bridegroom is the son of Mr. and Mrs. Roy A. Jacobsen Sr. of Park Forest, Ill.

Mrs. E. A. Schoeld, organist, played the traditional wedding music and sang "O Perfect Love" and "The Lord's Prayer."

Carol Small was maid-of-honor for her sister. She wore a summer suit of yellow lace and a small black velvet hat. Her flowers were yellow chrysanthemums worn as a corsage at the shoulder.

Given in marriage by her uncle, Jack Wester, the bride wore an aqua suit of velveteen designed with fitted jacket having a wide standing collar and three-quarter length sleeves. She wore a cap of aqua satin. For something old, the bride wore a gold necklace which was an heirloom from her great-aunt in Italy. She carried a white prayer book with large white chrysanthemums showered with white ribbon.

Terry Stollter of Midland served as best man and Ray Small, the bride's cousin, was usher.

Following the marriage a reception was held at the home of the bride's aunt and uncle, Mr. and Mrs. Jack Wester, in Carlsbad.

The bride's table was spread with white lace over green, using her chosen colors. Tendrils of green ivy wreathed the table, and white tapers in crystal holders were tied with green satin bows, placed at each side of the white wedding cake. The cake was made as a gift from Mrs. Iva Wester.

Assisting at serving cake and lime punch were the bride's aunt, Mrs. George Albers, Mrs. Bradley Burrus, both of Canyon, Mrs. W.

Legion Meeting Opens Saturday

Members of the American Legion and Auxiliary from posts in the 18th Congressional District will gather in Clarendon Saturday and Sunday for their annual fall convention.

They will hear two outstanding speakers, Joe L. Matthews of Fort Worth, state membership and post activities chairman, and Earl Rudder, commissioner of the state General Land Office. They will address the convention Sunday.

An election will be held Sunday afternoon to elect an 18th District Commander to fill the unexpired term of Paul Spillman of Wellington. Spillman was elevated to department vice commander when recently elected Fifth Division Commander.

The annual convention dance will be held Saturday night. Division Commander Spillman will preside at the session until his successor as district commander is chosen.

Framed Certificate Presented to Lodge

Mrs. Pearl Bowman presented the Canyon Rebekah Lodge, No. 350, with a framed certificate for enrollment of members at a meeting on Sept. 14 in the home of Noble Grant.

Presiding was Mrs. Velton Sorgee.

All members are urged to be present on Sept. 28. On this date balloting will be conducted.

Present on Sept. 14 were Mrs. Dolly Taylor, Mrs. Noah Murphy, Mrs. Myrtle Wester, Mrs. Pearl Bowman, Mrs. Myrtle Sparks, Mrs. Mae Bond, Mrs. Hattie Brasuel, Mrs. Cloys Pitt, Mrs. Margaret Cole, Mrs. Myrtle Stratton and the Noble Grand.

Better get your copy of Hill's story about the museum while they last. The Canyon News sells them.

J. Anderson of Amarillo and Mrs. Jack Wester.

Guests from Canyon included the bride's grandmother, Mrs. Helen Meyer, Mrs. George Albers and Mrs. Bradley Burrus.

Panhandle Personnel Association, College Hold Conference Oct. 19

A one-day meeting on the theme, "Keys to Supervision-Worker Relationship," has been scheduled for Oct. 19 by West Texas State College and the Panhandle Personnel Association.

The conference will be the third annual sponsored by the association in the field of industrial relations.

Dr. Wesley Wiksell, a member of the faculty of Louisiana State University and a consultant on communications in industry, will be the first speaker during the conference.

Other speakers to appear are William W. Keeler, vice president, Phillips Petroleum Co.; Dr. J. L. Otis, director of psychological research services, Western Reserve University, Cleveland, Ohio; and C. B. Elwell, manager of the administrative division of the Western Co., Midland.

In addition to the conference, tours of the Panhandle-Plains Historical Museum are scheduled. Conducted tours of other buildings on the college campus may be arranged.

Dr. Wiksell received his BA and MA degrees from the University of Ohio, his Ph.D. from LSU and has taken post-doctorate work at the University of Wisconsin, at Chicago University, Columbia and London.

He is the author of "Your Conversation," and has written numerous articles on the various aspects of communications. He served as head of the communications division of Stephens College for 12 years.

Dr. Wiksell has taught at Ethyl Corporation, Pan-American Southern Corporation, Esso Standard Oil Co., University of Missouri and

Stephens College. He is special consultant to professional men on communications problems, speeches, conference leadership, parliamentary law and engineering.

By LYNDON B. JOHNSON

Since I've been on my ranch, working at this job of getting completely well, I have been doing a lot of reading and a lot of thinking about the farm situation. I regret to say that nothing I have learned has made me feel good about the outlook for the average farmer.

In its August price survey, the Department of Agriculture reported a drop of 2 per cent in prices received by farmers for the things they raise. This continues the trend that has been under way for three years.

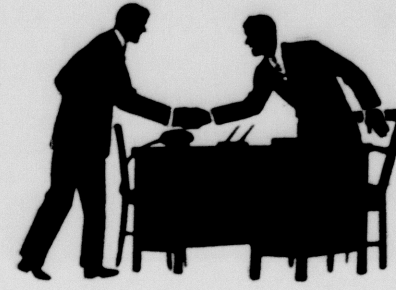

Farm prices, as reported for August, are 6 per cent below prices a year ago. They are 12.5 per cent below prices on January 1, 1953.

It is bad enough that farm income continues to drop. It is even worse that the farmer's relative share of the national income is declining steadily.

From 1946 through 1950, farm income averaged 15.2 per cent of the national income. Even in 1952, when farm prices had receded from their high point, the farmer had 12.6 per cent of the national income.

But in 1953 the farmer's share dropped to 11.6 per cent. In 1954 it went down still more — to 11.3 per cent. And the unpleasant truth is that this year, with corporate profits heading toward an all-time high, the farmer's share of the national income will be even less.

Now, you know and I know that

YOU GET PROMPT ACTION

the effects of lowered farm income, bad as they are on the farmers themselves, are by no means confined to the farmers.

Already, even with big corporate profits climbing, bankruptcies of small businesses are increasing. Many retail merchants in farming areas have been badly hit by the loss in

farm income. Farmers are leaving the land, and their sons are going into the cities.

This is bad — very bad — for Texas . . . and for the nation.

I am not trying to make the farm situation a political football. What I want is a farm program that is good for the farmers and good for the country.

Politics or no politics, I don't believe we have such a program at the present time. I think the constantly falling farm prices are direct and predictable result of the agricultural policies of the present Administration.

What do YOU think about this? I will be very glad to have your ideas.

School Spirit

Faculty, Students, and Towns-people:

I would like to impress upon your mind the importance of school spirit.

You very seldom find school spirit in a high school and when you do, you know that the school's teams have the potentiality to win, showing their best sportsmanship in whatever they participate in.

School spirit is not only for one person or maybe the cheerleaders, band, or football team, it includes the student body, or every person in the high school.

The oldest gripes in high schools after a football game are "The team didn't play hard enough or they could have won the game," or "We haven't got good coaches or the boys would have won." I don't suppose anyone who ever made these sly remarks ever stopped to think, it was his fault too, if he is a member of that high school.

Any team needs backing, and every school needs school spirit. The team that has the backing behind it and the school that has the spirit will usually go farther than a good team without any spirit.

A football team is what they make it. If they work hard for it they've usually got a good team. School spirit is a lot the same way. If you go to a pep rally and just sit and listen you might as well not go, for while you are just listening, there are a lot of others who are also just listening.

The worst sportsmanship that can happen in a pep rally happened last Friday in ours. There were some girls sitting behind me who were really yelling and seemed to have school spirit, suddenly two other girls turned and asked them very kindly to stop yelling so loudly.

You can't have school spirit when the school is divided and half wants the spirit and the other half doesn't. I know. I came from a small high school and our football team went to Regional last year. It wasn't that they were so extra good, but they were backed by the school and the whole town.

At our pep rallies half of the town was in our auditorium. The kids didn't care for yelling because the teachers and townspeople were yelling with us, too. Every Friday we marched down town and let the people know we were playing and where we were playing.

So in closing I leave you this thought, if you want school spirit, work at it. Get the town people interested, and you will have that "ol spirit." —Gloria Hunt.

Litterbugs Increase

Are you a litterbug? Or a cut-out bug? Canyon High School has shown increasing signs of both during the first few days of school.

In the Canyon cafeteria tables have been littered with napkins, ice cream cups, and other debris after the lunch hour. On the magazine rack in the library many magazines have pages torn out or cut up.

Are you guilty of either thing? If so, be careful not to do so. The cafeteria and library are for your use. When you wish to use the magazine rack, for instance, and find the article you seek cut out, it is disappointing.

Visitors have only appearances by which to judge our school. Are you doing your part in upholding the Canyon High banner?

Edit Bi-Monthly

The Eagle's Tale will be published bi-monthly this year beginning with this issue in The Canyon News. Advantages of this plan will be improvement of qualities of the school paper and an adequate time for preparation of copy. The bi-monthly publication will also be advantageous to the individual staff member as each has an overload of courses and holds membership in many extra-curricular activities.

Student Council Sells Decals

Eagles seem to be flying in formations of three these days.

The Student Faculty Congress is selling decals to finance the trip to Denton for the state meeting this spring.

A group of three eagle decals, two small and one large, is being sold for a nominal sum. These can be obtained from any SFC member.

The Eagle's Tale

Published weekly during the school term by members of the journalism class of Canyon High School. Published by The Canyon News for Canyon High School since 1925. Member of the Panhandle High School Press Association, Interscholastic League Press Conference, and Quill and Scroll. Winner of the 1952 PHSPA Community Service Award.

The Eagle's Tale

30th Year

Published by The Canyon News for Canyon High School

Wednesday, September 21, 1955

Modern Building Greet Students

Starting the school year in the new modernistic, brightly colored grade school in use for the first time this year will be the first five elementary classes of the Canyon School System.

The 20 sections of the classes met in the new Canyon Grade School August 21. Your child's school, located between Tenth and Twelfth Streets on the south side of town, was ready for occupancy only this year. Besides the classrooms, the building contains a convertible gym-auditorium and cafeteria. Mr. E. R. "Rex" Reeves, former junior high principal, will be the administrative head of that school.

New arrangements of the Canyon school system also sent the PE classes of junior high and the science classes of senior high into new annexes for the first time this year.

The football boys and physical education classes of junior high are using the new dressing rooms built during the summer. Attached to the rest rooms, the additions were built at a cost of \$6,000. Mr. Lawrence Brotherton, former grade school principal, will serve as administrative officer for the junior high.

The biology, chemistry, and physics classes met for the first time in the new science lab in the addition to the high school. The gym and home economics rooms were previously in use.

Other new arrangements in the high school are the new art lab in the old home ec kitchen laboratory and choir rooms in the north end of the junior high. The shifting of several classes has occurred to better facilitate teachers and students. The old classroom north of the principal's office has been remodeled into a book-room and office for Mr. J. E. Miller, head of senior high.

Homemakers Treat Parents and Teachers

Homemaking students held open house for their parents and teachers Wednesday, Sept. 7, in the homemaking department for the purpose of displaying some of the summer projects. Sixty-three girls completed home projects this summer.

Punch and cookies were prepared for refreshments by the third year girls, and second year students served the guests.

Debra McDonald arranged colorful posters for the occasion expressing new ideas in homemaking. Another activity of the homemakers was the regular meeting of the FHA conducted Thursday night for the installation of the 1955-56 officers. Last year's officers lighted candles representing the purposes of the organization and gave a short explanation of duties.

Barbara Brown, FHA annual picnic chairman, announced that Sept. 22 would be the date all FHAs would travel to Palo Duro Canyon for the picnic.

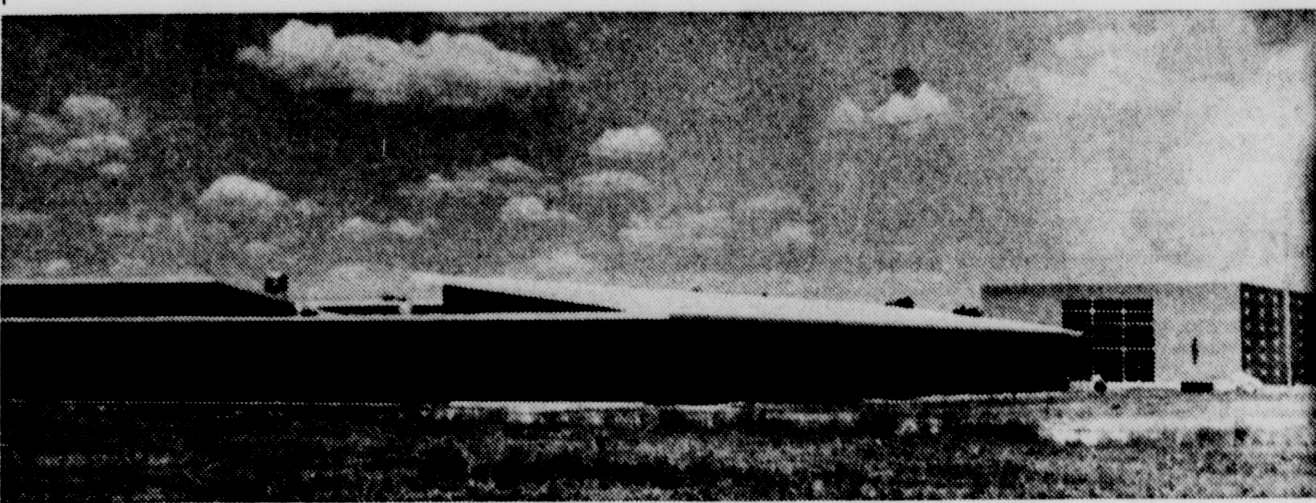

The topic of the October meeting will be International Good Will. Rosalie Frische and her mother, who traveled in Europe this summer, have been invited to be guest speakers.

Soviet coal production has spurred and will total 390,000,000 tons this year. The rate of increase will in a few years exceed the 1960 goal of 500,000,000 tons.

Thomas Mann, whose writings won him world fame, died of a heart attack in a hospital in Zurich, Switzerland, at the age of 80.

Buy, Build, Live in Canyon!

New Canyon Elementary School

The new Grade School, located one block west of the Happy highway, opened Aug. 31 to ease the enrollment problem by housing 512 elementary pupils. More than 1,000 students entered the Canyon Public Schools to begin classes.

High School Notes

Your Principal Says:

The first semester of the 1955-1956 term is well under way. Our students seem to have a fine spirit and an excellent attitude toward their work. Many of our faculty members have expressed the opinion that in general, we have the finest student body we have had in years. Our students are demonstrating superior qualities of citizenship and refinement in all phases of our school program.

I should like to say to the patrons of our community that your children will be under the supervision and instruction of a superior corps of teachers during this school term. Furthermore, each faculty member is interested in the wholesome development of your children as individuals. Our instructors are well qualified for the work they direct, and are specialists in the subject matter in which they offer instruction. The thing we prize most highly in our faculty is the fine manner in which each member demonstrates the principles of Christian living. We are extremely fortunate in that our boys and girls are receiving instruction from men and women who teach not only by precept, but also by example. Every member of our faculty stands ready and willing at all times to lend a helping hand to students needing special help and assistance. A standing invitation is extended for students to avail themselves of this over and above service.

In the future, we plan for you to hear directly from each of our faculty members through this column. We, at Canyon High School, are proud of our school, and we extend to you a special invitation to visit us at any time. We want you to feel that you are an important part of it. We solicit your support, your cooperation, and your prayers as we strive to build a better school, and in the task of helping our boys and girls become the finest and best citizens in the land.

Can we count on you?
Sincerely,
James E. Miller, Principal
Canyon High School

Farm crop output for '55 is forecast as the second highest.

Tough Tilt Opens Season Schedule

A 94-yard plunge off-tackle by Floydada's Laron Fulton proved to be the deciding factor as the Whirlwinds pulled a mild upset by dumping the Eagles in their season curtain-raiser, 7-2.

The game was played before an overflow crowd of 2,500 at Floydada's Wester Stadium.

The Whirlwinds quickly turned the tide of the game as they whipped away a 2-0 advantage the Eagles had clung desperately to since midway of the second quarter.

The Eagles had taken their short-lived advantage after holding the Winds in check deep in their own territory. A third down attempted quick-kick by the Whirlwinds backfired when Eagle guard Farrell Davenport bulled through to block the attempted kick.

The ball bounced crazily out of the Floydada end-zone, giving the Eagles an automatic safety and a 2-0 lead.

Fulton's scamper followed a punt by A. L. Pruett that had left the Whirlwinds with their backs against their own goal line. Marvin Rucker added the extra point to give Floydada the 7-2 decision.

Charlie Neblett took over direction of the Eagles late in the fourth canto and the Harrison-hustlers moved 42 yards in five plays before a pass interception stopped them in their final bid for a touchdown.

The Eagles led in first downs 10 to 8 but were outgained 247 yards to 125.

Defensively, Don Britain, Davenport and Hubert Green were standouts for the Eagles. The Eagles were stalled on numerous occasions by the 110 yards in penalties they suffered.

School Song

Our hearts are filled with gladness
And pride in Canyon High.
We'll play the game the livelong day,
Dishonor ne're draws nigh.
We'll spend our lives in serving
For she has taught us how.
So here's our pledge, we'll give our best
For Canyon High School now.

Senior High Class Officer Elections Plot Organization, Annual Activities

How often has the term class meeting been used this year? At least four times since all classes of Canyon High School have held at least one meeting since the beginning of school to elect sponsors and officers, and to carry out other business.

"Dream high and not low" stated Mr. J. E. Miller, principal of Canyon High, at the first freshman class meeting in the school auditorium. The class elected by acclamation Mr. G. D. Inman, new agriculture instructor, as freshman advisor.

The senior class held meetings in the auditorium and elected Jerome Edwards president, while Richard Irvine was selected for vice-president. Rosalie Frische was chosen secretary, and Barbara Bacon as treasurer. The post of sergeant-at-arms was filled by Melvin Cunningham. Miss Claudia Neelley and Mr. Thomas L. Devin are senior class sponsors.

Sale of football programs was the main topic of discussion by the senior class. Eight students were appointed for each of the next three home games as salesmen of football programs. Class dues of \$1.00 per semester were assessed and seating arrangements in the auditorium were assigned.

The junior class elected Mrs. Clara Long and Mr. Donald Briggs, sophomore year sponsors, to serve as advisers for the next two years. Elston Burkham was chosen president, and Mary Sue Bolton was elected secretary. Each junior has a quota of two chrysanthemums to be sold for each home game.

Members, Faculty Featured by P-TA

New members of the Parent-Teachers Association and of the public school faculty were introduced at the first monthly meeting of the P-TA last week.

Group singing was led by Mrs. A. W. Lair, and piano accompaniment was furnished by Mrs. Hope Rusk.

Joe Gibson, superintendent, gave a welcoming speech and introduced Principals James E. Miller, Lawrence Brotherton and Rex Reeves. The principals introduced the new faculty members.

Plans for a formal open house of the new elementary school were discussed and will be announced later.

A. C. Haley Jr. presided at the meeting.

Help Keep Canyon Clean!

CHS Eagles Trample Panhandle Panthers

The Eagles handed the Panhandle Panthers a 33 to 6 setback Friday night with Don Britain and Charles Neblett each scoring two touchdowns and Harlie Adams scoring one.

Canyon went ahead in the first quarter when Don Britain banged across from about the seven yard line. Britain did it again in the

second quarter and Charles Neblett kicked the extra point. Later in the second period Neblett brought about the half-time score of 20 to 0 by crashing over from the one yard.

During the third quarter Panhandle climaxed a long drive with Monty Bell scoring their only touchdown. Harlie Adams scored during the third quarter with a thrilling 45 yard run, and Neblett booted the one pointer.

In the last period Neblett scampered across from 10 yards out to make the Eagles' final score.

The Eagles made 304 yards rushing while with fine defensive work the Panthers were held to only 54 yards.

While in first downs Canyon lead 14 to 7. Both teams fumbled three times during the game.

There was a fine crowd at the Eagles first home game. Next week there will be another home game with the District 2-AA Muleshoe Mules.

Publication Staffs Discuss Technique

The staffs of the 1955-1956 annual, Soaring Wings, and the high school paper, The Eagle's Tale, have assembled in the art and journalism rooms the past two weeks in order to learn about editing an annual and publishing the school paper.

Sales of advertisements for the yearbook will begin soon, Mrs. J. L. Gilmore, high school librarian and annual sponsor, stated. The staff will receive preliminary training in editing an annual the first eight weeks. A few pictures have already been taken of band, football players, and cheerleaders.

Heading the annual staff this year will be Charlotte Crain, senior, as editor. Layout and art editor will be Virginia Walker, a junior. Business manager will be Virginia Leake, also a senior.

The journalists elected Charlotte Crain to head their staff as editor this year. Sharing her responsibilities will be co-editor Judy Newman. Other editors will be featured editor, Annette Dugan, junior, and news editor, Pat Newland, senior. Jerome Edwards, senior, who is active in football, will act as the paper's sports editor.

The Eagle's Tale will be published bi-monthly in The Canyon News.

B Squad Opener Smears Hereford

Canyon Eagle B-squad opened their season last Thursday afternoon in fine fashion, downing the Hereford freshmen, 40-7, on the Eagle's home field.

The young Eagles scored early, driving 37 yards after recovering a Hereford fumble before sending fullback Eddie Boydston through the center of the line for the first touchdown. Boydston added the extra point for a 7-0 first quarter lead.

Canyon erupted for three quick tallies in the second period as they sent Donny Ford over from four yards out, Larry Brotherton on a two-yard plunge and Boydston on a 34 yard scamper off-tackle. Boydston, Ford and Craig Hinger added the point after each touchdown and the Canyon club lead 28-0 at half-time.

Ford rambled around end for 19 yards and the fifth Canyon touchdown late in the third and Boydston drove off-tackle for five yards and the final count.

Coach Johnny Ussery's Canyon B-team travels to Muleshoe tomorrow night to tackle the Mules' B-squad.

Juniors Sell Mums

With the beginning of the sale of chrysanthemums the junior class of CHS launched a contest slated to raise funds for yearly activities.

The chrysanthemums, white with a purple "C," will be sold at each home game for \$1.50. All proceeds will go into the class treasury. Divided into four teams, the class will fete the winning side with a party.

Another money raising project, magazine sales, will begin Sept. 19.
